Weighted average return on net assets after non-recurring profit/loss (%)	6.75	5.58	6.64	1.17

Explanation of the Company's major accounting data and financial indicators:

During the Reporting Period, the Company acquired 100% equity interests of Ningchang Zhenli Company in cash of RMB502 million and undertook all of its interest-bearing debts, capitalised such debts into equity, and Guangjing Xicheng Company, a subsidiary of the Company, acquired 100% equity interests of Xiyi Company in cash of RMB662 million and conducted the merger and acquisition of Xiyi Company. The two acquisitions have been completed during the Reporting Period. Ningchang Zhenli Company has become a wholly-owned subsidiary of the Company and Xiyi Company has been consolidated into Guangjing Xicheng Company, and as a result there is change in the scope of the combined financial statements of the Group.

As the Company, Ningchang Zhenli Company and Xiyi Company were ultimately controlled by Communications Holding before and after the transactions, the Company considered the transactions as a business combination under common control which is accounted for using the accounting treatment of business combinations under common control in accordance with Accounting Standards for Business Enterprise No. 20 – Business Combinations issued by the Ministry of Finance of the PRC. In this financial report, restatements are made to the opening balance and figures for the corresponding period of last year according to relevant requirements.

REPORT OF THE DIRECTORS

I. Discussion and Analysis of the Board on the Operation of the Company during the Reporting Period

(I) Business Review and Analysis of Operations

1. Business Overview

The Group is principally engaged in the investment, construction, operation and management of toll roads and bridges in the Jiangsu Province as well as ancillary services at service areas along such roads. The Group is also actively exploring and venturing into new business fields, such as property investment and development, advertisements along expressways and other financial and industrial investment with the aim to find new revenue growth opportunities and achieve the sustainable development of the Group.

During the Reporting Period, the Group realized total operating revenues of approximately RMB4,310,667,000, decreased by approximately 1.24% year-on-year, of which toll revenue amounted to approximately RMB3,128,641,000, representing an increase of 2.03% year-on-year; revenue from ancillary services amounted to approximately RMB927,516,000, representing a decrease of approximately 16.67% year-on-year; revenue from property sales amounted to RMB229,220,000, representing an increase of approximately 40.67% year-on-year; and revenue from advertising and other non-core operations amounted to approximately RMB25,290,000, up by approximately 12.57% year-on-year. Under the PRC Accounting Standards, the Group realized an operating profit of approximately RMB1,910,573,000 during the Reporting Period, representing an increase of approximately 16.04% year-on-year. Owing to the growth of the toll revenues and revenue from property sales, the income from investment contributed from each associate recorded relatively significant increase. After the completion of acquisition of Ningchang Zhenli Company, and the transfer of debts, its financial expenses were reduced, resulting in a turnaround from loss to profit making starting from this year. The profit can be used to make up losses in the prior 5 years, which was eligible for recognizing deferred income tax assets. The one-off income tax reduction was approximately RMB309,961,000, which increased the profit after tax. As a result, the net profit attributable to shareholders of the Company was approximately RMB1,726,700,000, and earnings per share was approximately RMB0.3428, representing a year-on-year increase of approximately 46.18%; net profit attributable to shareholders of the Company after non-recurring profit or loss was approximately RMB1,463,750,000, representing a year-on-year increase of approximately 23.75%. The development and operating performance of each business are set out as follows.

2. Toll road and bridge operations

During the Reporting Period, the Group recorded a toll revenue of approximately RMB3,128,641,000, representing an increase of approximately 2.03% year-on-year. Toll revenue accounted for approximately 72.58% of the Group's total operating income, representing an increase of approximately 2.33 percentage points year-on-year. Among the said revenue figure, toll revenue amounted to approximately RMB496,759,000 was contributed by the newly acquired Ningchang Expressway, Zhenli Expressway and Xiyi Expressway, Wuxi Huantaihu Expressway during the first half of the year. Excluding the four newly acquired items, the toll revenue of other road and bridge items during the first half of the year accounted for a decrease of approximately 0.44% year-on-year.

REPORT OF THE DIRECTORS

Operating performance of roads and bridges in the first half of the year was as follows:

Road/Bridge	Average daily traffic volume (vehicle/day)			Average daily toll revenue (RMB'000/day)		
	Reporting Period	Corresponding period of the previous year	Change %	Reporting Period	Corresponding period of the previous year	Change %
Shanghai-Nanjing Expressway	80,081	74,512	7.47%	12,161.38	12,247.01	-0.70
Shanghai-Nanjing Section of G312	7,880	9,046	-12.89%	140.47	145.63	-3.54
Nanjing Section of Nanjing-Lianyungang Highway	4,583	4,582	0.02%	71.74	88.30	-18.76
Guangjing Expressway	61,085	55,662	9.74%	766.45	753.31	1.74
Xicheng Expressway	63,966	59,367	7.75%	1,400.76	1,370.55	2.20
Jiangyin Bridge	72,153	66,263	8.89%	2,672.47	2,577.16	3.70
Sujiahang Expressway	55,093	50,931	8.17%	3,156.09	2,963.47	6.50
Ningchang Expressway	26,785	18,045	48.43%	1,519.48	1,095.81	38.66
Zhenli Expressway	9,093	8,488	7.13%	501.97	517.34	-2.97
Xiyi Expressway	18,006	17,054	5.58%	652.74	657.33	-0.70
Wuxi Huantaihu Expressway	6,853	6,441	6.40%	70.34	65.84	6.84

In terms of the operating performance of various items in the first half of this year, the average daily traffic volume of Shanghai-Nanjing Expressway increased by approximately 7.47% year-on-year, among which the increase of passenger vehicles was approximately 11.37% year-on-year, while the decrease of trucks was approximately 6.25% year-on-year. Due to the rapid growth in passenger vehicle flow and the continuous decrease in truck flow, the proportion of passenger vehicle flow to truck flow were 77.55% to 22.45%, representing a decrease of 3.14 percentage points year-on-year. The western section of Shanghai-Nanjing Expressway was still subject to the diversion effect of Ningchang Expressway with a decrease of approximately 12.24% year-on-year in truck flow, representing a slowdown in decrease as compared to the second half of 2014 (The western section of Shanghai-Nanjing Expressway recorded a decrease of approximately 16.38% in truck flow for the second half of 2014.). Owing to the decline in the truck traffic volume, during the Reporting Period, the average daily toll revenue of Shanghai-Nanjing Expressway was approximately RMB12,161,380, with a year-on-year decrease of approximately 0.70%.

The traffic volume of Ningchang Expressway, the main bypass roads of the western section of Shanghai-Nanjing Expressway, continued to maintain good growth momentum. In the first half of this year, the average daily traffic volume of Ningchang Expressway was approximately 26,785, representing a year-on-year growth of approximately 48.43%, among which the average daily traffic volume of passenger vehicles was approximately 20,092, representing a year-on-year growth of approximately 55.39% while the average daily traffic volume of trucks was 6,693, representing a year-on-year growth of approximately 30.86%. The performance of traffic volumes was better than expected. The total traffic volumes of Shanghai-Nanjing West Corridor comprising the western section of Shanghai-Nanjing Expressway and Ningchang Expressway have increased approximately 15.71% year-on-year. After the completion of acquisition of Ningchang Expressway, the diversion effect on the western section of Shanghai-Nanjing Expressway has been offset effectively. The performance of traffic volumes of the other three newly acquired items, being Zhenli Expressway, Xiyi Expressway and Wuxi Huantaihu Expressway met the expectation. The scale efficiencies of the asset integration of the expressways within the region to the Group's major business are gradually brought out.

As for other roads and bridges including Guangjing Expressway, Xicheng Expressway, Jiangyin Bridge and Sujiahang Expressway, their traffic volumes continued to maintain a good growth trend. However, due to the slight decrease in the truck flow, the growth of toll revenue was less than the growth in traffic volumes.

Both the traffic volume and the revenue of G312 decreased at different extents because of the diversion impact of the newly opened neighboring urban roads. Currently, the compensation work regarding the removal of the two stops is still under progress. Although the traffic volume of the Nanjing-Lianyungang Highway in the Reporting Period remained basically the same with the corresponding period of last year, the toll revenue decreased by 18.76% year-on-year because of the decrease in truck flow.

REPORT OF THE DIRECTORS

3. Ancillary Services

Ancillary services include petroleum product sales, food and beverage, retail sales of goods and other related operations provided at the six service areas along the Shanghai-Nanjing Expressway. The change in ancillary services revenue was mainly attributable to the change in customer flow volume at the service areas and this was closely related to the change in Shanghai-Nanjing Expressway's traffic volume.

During the Reporting Period, the Company's revenue from ancillary services amounted to approximately RMB927,516,000, representing a year-on-year decrease of approximately 16.67%. In particular, the sales of oil products amounted to approximately RMB808,541,000, accounting for approximately 87.17% of the total revenue from ancillary services. The sales volume of oil products remained basically the same with the corresponding period of last year and the average profit margin level of oil products represented a slight year-on-year increase. However, due to the decrease in price of international crude oil, there was a continuous downward adjustment on the retail price of oil products, representing a relatively substantial decrease as compared to the average retail price for the corresponding period of last year, and the year-on-year revenue of oil products decreased by approximately 19.19%. Revenue from other businesses including food and beverage, retail service and hindrance clearing services amounted to approximately RMB118,975,000, representing a year-on-year increase of approximately 5.72%

4. Real Estate Development and Sales Business

In the first half of this year, along with the relaxation on the purchase restriction order imposed on the property markets and several rounds of interest rate reductions, the demand for apartments was unleashed and the housing market was gradually recovered. In light of such market opportunities, the real estate arm of the Company adjusted and expedited the construction progress and enhanced sales. The development and sales of all projects were launched orderly.

During the Reporting Period, a total of 187 units from property projects have been pre-sold. The revenue from the pre-sale of property units amounted to approximately RMB170,995,000; 219 units were delivered while the carry-over revenue from sales of delivered units amounted to approximately RMB229,220,000, representing a year-on-year increase of approximately 40.67%. During the Reporting Period, the net profits of property business amounted to RMB46,409,000. Owing to the relatively lower selling expenses and administrative expenses settled in the first half of this year, the profits from property business in the first half of this year was relatively satisfactory.

5. Advertising and Other Businesses

Other businesses of the Company mainly comprise of advertising operations from the Company's subsidiaries, such as Ninghu Investment, and property services provided by Ninghu Properties.

During the Reporting Period, the revenue from advertising and other businesses of the Group amounted to approximately RMB25,290,000, representing a year-on-year increase of approximately 12.57%. Among which, revenue from advertising business was approximately RMB22,026,000, representing a year-on-year increase of 10.26%; revenue from property service fees and lease of commercial properties was approximately RMB3,264,000, representing a year-on-year increase of approximately 31.12%, which was mainly contributed by the rental income from the lease of commercial properties in Kunshan by Ninghu Investment, and the property management income from managing and operating a complex of residential properties delivered by Ninghu Properties.

REPORT OF THE DIRECTORS

(II) Analysis for principal businesses

1. Analysis of changes in relevant items in the financial statements

Unit: Yuan Currency: Renminbi

Item	Reporting Period	Corresponding period of the previous period (Restated)	Change %
Operating income	4,310,667,008	4,364,787,034	-1.24
Operating costs	2,054,507,543	2,239,985,465	-8.28
Selling expenses	3,570,290	7,557,685	-52.76
Administrative expenses	93,752,731	94,059,242	-0.33
Financial expenses	406,453,703	444,291,532	-8.52
Net cash flow from operating activities	2,072,655,464	1,994,672,975	3.91
Net cash flow from investing activities	-1,382,844,231	-100,657,226	-
Net cash flow from financing activities	-750,800,210	-1,629,955,098	-

Explanation on the reason of change in selling expenses: During the Reporting Period, the commission and advertising fees of Ninghu Properties, a subsidiary of the Company, decreased.

Explanation on the reason of change in financial expenses: As of the end of the Reporting Period, the Group's total interest-bearing borrowings amounted to approximately RMB13,850,000,000 and the financial expenses amounted to approximately RMB406,454,000, representing a year-on-year decrease of 8.52% mainly due to the year-on-year decrease in comprehensive costs for borrowings of bank loan, direct financing in the first half of 2015.

Explanation on the reason of change in net cash flow from investing activities: During the Reporting Period, the Company acquired Ningchang Zhenli Company for a total consideration of RMB502,000,000; Guangjiang Xicheng Company, a subsidiary of the Company, acquired Xiyi Company for a total consideration of RMB662,000,000, resulting in a relatively significant year-on-year increase in the net cash outflow from investing activities.

Explanation on the reason of change in net cash flow from financing activities: Due to the difference in the date of dividend distribution, during the Reporting Period, the Group's cash payments for distribution of dividends recorded year-on-year decrease, resulting in significant year-on-year decrease in the cash outflow from financing activities.

REPORT OF THE DIRECTORS

2. Components of costs

Aggregate operating costs amounted to approximately RMB2,054,508,000, representing a year-on-year decrease of approximately 8.28%. The components of costs are set out below:

Unit: Yuan Currency: Renminbi

Items of operating costs	Reporting Period	Percentage %	Corresponding period of the previous year	Percentage %	Year-on-year increase/decrease %	Explanation on changes
Operating costs of the toll roads	995,798,048	48.47	985,852,360	44.00	1.01	
Depreciation and amortization	650,616,652	31.67	669,478,926	29.89	-2.82	Primarily due to the relatively higher depreciation and amortization cost subject to the changes in accounting estimates, a year-on-year decrease for the Reporting Period is resulted.
Costs on toll collection operation	53,378,302	2.60	58,101,700	2.59	-8.13	Subject to the execution cycle of certain projects, a year-on-year decrease for the Reporting Period is resulted.
Costs on roads and bridges maintenance	59,085,374	2.87	35,038,513	1.56	68.63	Due to normal wear and tear of roads, number of maintenance projects of highways increased in the Reporting Period. As a result, costs on roads and bridges maintenance also increased.
Costs on system maintenance	12,058,513	0.59	14,160,346	0.63	-14.84	Subject to the execution cycle for the maintenance of systems such as communication, toll, monitoring and so forth, costs on system maintenance recorded a year-on-year decrease in the Reporting Period.
Labour costs	220,659,207	10.74	209,072,875	9.33	5.54	Labour costs of toll road operations recorded a year-on-year increase due to the rigid growth in labour cost.
Costs on ancillary businesses	916,577,166	44.61	1,108,487,581	49.49	-17.31	
Raw materials	811,346,802	39.49	1,009,943,716	45.09	-19.66	The price of oil products decreased, resulting in a year-on-year decrease in raw material costs in costs on ancillary business.
Depreciation and amortization	13,723,601	0.67	14,021,967	0.63	-2.13	Due to the relatively higher depreciation and amortization cost subject to the changes in accounting estimates, a year-on-year decrease for the Reporting Period is resulted.
Labour costs	74,800,454	3.64	69,384,546	3.10	7.81	Labour costs of ancillary businesses recorded a year-on-year increase due to the rigid growth in labour cost.
Other costs	16,706,309	0.81	15,137,352	0.67	10.36	Other costs of ancillary businesses recorded a year-on-year increase due to reasons such as rating of service areas.
Costs on property sales business	134,401,169	6.54	138,808,764	6.20	-3.18	Since the gross profit margin of delivered property projects in the Reporting Period was higher than that of the corresponding period of the previous year, costs on property sales business recorded a year-on-year decrease.
Costs on advertising and other business	7,731,160	0.38	6,836,760	0.31	13.08	Primarily due to the increase in management and operation costs of the delivered complex of residential properties by Ninghu Properties.
Total	2,054,507,543	100	2,239,985,465	100	-8.28	

REPORT OF THE DIRECTORS

3. Capital expenditure

In 2015, the planned total capital expenditure of the Group was approximately RMB3,130,000,000, among which approximately RMB1,600,581,000 was actually incurred during the Reporting Period, representing a year-on-year increase of approximately 938%. Major capital expenditure projects are as follows:

<u>Capital Expenditure Project</u>	<i>RMB</i>
Ningchang Zhenli Company investment	502,000,000
Xiyi Company investment	662,000,000
Equity investment in Jiangsu GCL Gas	2,953,900
Equity investment in Hanwei Company	70,000,000
Investment in construction of Zhendan Expressway	277,839,217
Information construction projects	850,959
Noise barriers construction projects	12,710,525
Renovation project of toll collection points and service areas	46,301,023
Construction of the three major systems	1,957,797
Connection and renovation of Jingjiang station of Guangjing Expressway and Xicheng Expressway	5,000,000
Setting up advertising signage	4,605,987
Other construction in progress and equipment	14,361,276
	<hr/>
Total	1,600,580,684
	<hr/> <hr/>

4. Asset liquidity and financial resources

During the Reporting Period, gross cash inflow from the Group's operating activities amounted to approximately RMB4,768,955,000, and net cash inflow from operating activities amounted to approximately RMB2,072,655,000, representing a year-on-year increase of approximately 3.91%. After the completion of merger and acquisition of Ningchang Zhenli Company and Xiyi Company, there was a new addition to the liabilities of the Group in the total amount of approximately RMB9,347,347,000, resulting in the total liabilities of approximately RMB17,284,688,000 as at the end of the Reporting Period and an increase in the total assets gearing ratio from 23.71% to 45.9% (Note: the basis for the calculation of the total assets gearing ratio: liabilities/total assets), which remained at a relatively reasonable level. As at the end of the Reporting Period, the book value of bank balances and cash of the Group amounted to approximately RMB676,473,000. As such, the management believes that the Group does not have any issue on cash liquidity.

REPORT OF THE DIRECTORS

5. Financial strategy and financing arrangement

During the Reporting Period, the Company actively expanded its financing channels and adjusted its debt structure. Additional direct financing in the Reporting Period amounted to RMB1,400,000,000, which was used to satisfy the funding demands for operational management and project investment and effectively controlled the financing costs. As at the end of the Reporting Period, the total interest bearing liabilities amounted to RMB13,850,258 and the consolidated borrowing costs on interest-bearing liabilities were approximately 5.89%, which represented a year-on-year decrease of 0.2 percentage point and were approximately 0.29 percentage points lower than the bank lending interest rate for the same period. During the first half of this year, the Company's major financing activities were as follows:

Financing categories	Issuing date	Product term	Financing Amount RMB'000	Issuing interest rate %	Prevailing bank benchmark rate %	Decrease in financing costs %
Ultra-short-term financing bills	2015-01-20	90 days	300,000	4.8	5.6	14.29
Ultra-short-term financing bills	2015-03-06	180 days	300,000	4.6	5.35	14.02
Ultra-short-term financing bills	2015-04-16	180 days	400,000	4.7	5.35	12.15
Ultra-short-term financing bills	2015-05-21	176 days	400,000	3.45	5.1	32.35

6. Credit policy

In order to minimize the credit risk, the Group has controlled credit limits, undertaken credit approvals and executed other monitoring procedures to ensure that necessary follow-up actions are taken to recover overdue debts. In addition, the Group reviews the recoverable amount of its receivables at each balance sheet date to ensure that adequate provisions are made for bad debts. In this regard, the management of the Group considers that the Group's credit risk was low.

7. Contingencies

Ninghu Properties, a subsidiary of the Company, provided several guarantees to banks for bank borrowings granted to buyers of properties of Huaqiao Urban Core C4 Tongcheng Hongqiao Mansion, Huaqiao Urban Core B4 Guangming Jiezuo Project, Huaqiao Urban Core B19 Guangmingxinzuo Project and Baohua Hongyan Community Land B Phase 1 and Phase 2 Tongcheng Shijia Project. The guarantee obligation will commence from the date on which the guarantee contract comes into effect and will cease when the buyers complete registration of mortgage and submit the third party property rights certificates to banks. As at 30 June 2015, the outstanding guarantees amounted to approximately RMB217,914,000 (31 December 2014: RMB175,803,000).

8. Pledge of assets

The Company entered into a debt transfer agreement with Ningchang Zhenli Company and the relevant bank on 15 June 2015 and agreed that the outstanding part of the pledged borrowings made by Ningchang Zhenli Company with China Development Bank Jiangsu Branch and Bank of China Jiangsu Branch will be undertaken by the Company from the date of execution of the agreement. The original borrowing amount obtained from China Development Bank Jiangsu Branch was RMB1,700,000,000 for the investments in the Ningchang Expressway project. The aforesaid borrowing was obtained through pledging the toll collection right of Ningchang Expressway. As at the end of the Reporting Period, RMB550,000,000 has been repaid in aggregate and the balance of the borrowing amounted to RMB1,150,000,000. The original borrowing amount obtained from Bank of China Jiangsu Branch was RMB1,100,000,000 for the investments in the Zhenli Expressway project. The aforesaid borrowing was obtained through pledging the toll collection right of Zhenli Expressway. As at the end of the Reporting Period, RMB451,000,000 has been repaid in aggregate and the balance of the borrowing amounted to RMB649,000,000.

REPORT OF THE DIRECTORS

A subsidiary of the Company, Guangjing Xicheng Company obtained bank loans amounting to RMB400,000,000 from Bank of Communications Jiangsu branch in 2012 for the equity investment in Yanjiang Company. The bank loans were secured by toll road operation rights of Guangjing Expressway and Xicheng Expressway. At the end of the Reporting Period, RMB150,000,000 has been repaid in aggregate and the balance of the borrowing amounted to RMB250,000,000.

A subsidiary of the Company, Guangjing Xicheng Company has acquired and absorbed Xiyi Company and undertaken the original borrowings of Xiyi Company. Xiyi Company obtained bank loans amounting to RMB200,000,000 from Bank of China (Wuxi branch) for the construction of Wuxi Huantaihu Expressway. The bank loans were guaranteed by Communications Holding and further secured by toll road operation rights of Wuxi Huantaihu Expressway in June 2008. At the end of the Reporting Period, RMB147,000,000 has been repaid in aggregate and the balance of the borrowing amounted to RMB53,000,000.

9. Entrusted deposits

As at 30 June 2015, the Company did not have any trust deposits with any financial institutions in the PRC or any fixed term deposits which would be irrecoverable upon their maturity.

10. Entrusted loans

As at 30 June 2015, the loan of the Company and its subsidiary obtained by way of entrusted loan were as follow:

Related Party	Amount of borrowing/loan	Inception date	Maturity date	Remarks
Borrowed from:				
Far East Shipping Company	185,000,000	13 August 2014	13 August 2015	Entrusted loan with annual interest rate of 6%

Network Operation Company	50,000,000	2 July 2014	1 July 2015	Entrusted loan with annual interest rate of 6%

Note: The above entrusted loans were obtained at such interest rate no higher than the prevailing interest rate of borrowing from banks. The Company and its subsidiaries were not required to provide guarantee and charge. Borrowings/loans that were matured as at the date of this report and the relevant interests have been fully repaid.

11. Foreign exchange risks

The Group operates its businesses principally in the PRC. No material foreign exchange risks are involved as the Company's revenues from operations and capital expenditures are all settled in Renminbi, except for dividend payments for H shares. A loan of USD9,800,000 was secured from the Spanish government in 1998 and will be due on 18 July 2027. As at 30 June 2015, the balance of the loan was approximately RMB20,449,000 after currency conversion, against which no foreign exchange hedge arrangements were made. Fluctuations in exchange rates will not have any material impact on the Company's results.

REPORT OF THE DIRECTORS

12. Explanation on the material changes on structures of the Company's profit or sources of profit

According to the 17th meeting of the 7th session of the Board on 30 December 2014, the Company has agreed to acquire all equity interest in Ningchang Zhenli Company, transfer all the debts of Ningchang Zhenli Company to the Company and capitalize such debts into equity; and agreed that Guangjing Xicheng Company, a subsidiary of the Company, acquired all equity interests in Xiyi Company and implemented acquisition and merger of Xiyi Company. The above transactions were approved by the shareholders on 12 March 2015 in a general meeting. On 30 April 2015, the Company completed the merger and acquisition of Xiyi Company; and on 31 May 2015, the Company completed the acquisition on Ningchang Zhenli Company.

As the Company, Ningchang Zhenli Company and Xiyi Company, were ultimately controlled by Communications Holding before and after the transactions, the above transactions were seen as a business combination under common control which is accounted for using the accounting treatment of business combinations under common control. Restatements are also made to the opening balance and figures for the corresponding period of last year in this financial statement. Meanwhile, after the completion of acquisition of Ningchang Zhenli Company, debts were transferred and the financial expenses were reduced, resulting in a turnaround from loss to profit making starting from this year. The profit can be used to make up losses in prior 5 years, which was eligible for recognizing deferred income tax assets. The one-off income tax reduction was approximately RMB309,961,000, which increased the profit after tax. As a result, during the Reporting Period, there were changes on the sources of profit of the Company.

(III) Operation analysis by industries, products or regions

1. Principal operating activities by industries, by products

Unit: Yuan Currency: Reminibi

By industries	Operating revenue	Operating costs	Principal operating activities			
			Gross profit margin (%)	Change in operating revenue over the previous year (%)	Change in operating costs over the previous year (%)	Change in gross profit margin over the previous year (%)
Toll road	3,128,641,432	995,798,048	68.17	2.03	1.01	0.32

Total	4,310,667,008	2,054,507,543	52.34	-1.24	-8.28	3.66

REPORT OF THE DIRECTORS

Explanation on the principal operating activities (classified by industries)(classified by products):

1. During the Reporting Period, Ningchang Expressway, Zhenli Expressway, Xiyi Expressway and Wuxi Huantaihu Expressway became under the common control of the Group. The increase in the number of toll road projects, and each toll road project being subject to the changes in traffic volume, have resulted in changes in the year-on-year gross profit margin.
 2. Ancillary services were subject to the downward adjustment on the price of oil products, resulting in decreases in both year-on-year operating revenue and operating costs, and therefore the gross profit margin level increased slightly compared to the corresponding period of last year.
 3. During the Reporting Period, the major property units delivered were those of Tongcheng Guangming Jiezuo. Due to the relatively low land acquisition cost for the project, the gross profit margin from property business in this period was higher than that of the corresponding period of last year.
2. Operating Activities by Geographical Areas

Geographical area	Operating revenue (RMB)	Year-on-year increase/decrease %
Jiangsu Province	4,310,667,008	-1.24

II. Analysis of Investment of the Company

(I) Overall analysis on external equity investment

During the Reporting Period, the external equity investment of the Group amounted to RMB1,236,954,000. The specific items include: the acquisition of 100% equity interest in Ningchang Zhenli Company for a total consideration of RMB502,000,000 by the Group; the acquisition of 100% equity interest in Xiyi Company with a consideration of RMB662 million by Guangjing Xicheng Company, a subsidiary; establishment of the joint venture Hanwei Company with capital contribution of RMB70,000,000; and additional investment in Jiangsu GCL Gas for RMB2,954,000. The progress of each investment project is as follow:

In order to realize the scale expansion of the principal business of toll roads of the Group, offset the diversion effect on the western section of Shanghai-Nanjing Expressway by the parallel highways of Ningchang Expressway and improve the management scale efficiencies of Guangjing Xicheng Company, the Company proactively carried out the merger and acquisition of the two projects of Ningchang Expressway and Zhenli Expressway and Xiyi Expressway during the Reporting Period. On 30 December 2014, the seventeenth meeting of the Seventh session of the Board considered and approved the acquisition of 100% equity interest in Ningchang Zhenli Company with a consideration of RMB502 million in cash together with the transfer of all its interest-bearing debts and capitalisation of such debts into equity, and the acquisition of 100% equity interest in Xiyi Company with a cash consideration of RMB662 million by Guangjing Xicheng Company, a subsidiary, and the merger of Xiyi Company. The two assets merger and acquisition projects were considered and approved at the 2015 first extraordinary general meeting of the Company on 12 March 2015. On 30 April 2015, Guangjing Xicheng Company completed the merger and acquisition of Xiyi Company; and on 31 May 2015, the Company completed the acquisition of Ningchang Zhenli Company. As at the end of the Reporting Period, the registrations of changes in industry and commerce information for the two acquisition projects were all completed.

REPORT OF THE DIRECTORS

On 31 October 2014, upon consideration and approval at the 16th meeting of the 7th session of the Board, the Company and Luode Fund Company signed a cooperative framework agreement in relation to the development of Lot No. 2, South Nanjing New Town ("Parcel No. 2") ("Framework Agreement"), pursuant to which Luode Fund Company is responsible for raising a fund and the Company and such fund jointly establish a project company with capital contribution in the proportion of 70:30 to develop Parcel No. 2. During the Reporting Period, Luode Fund Company had raised a sum of RMB200 million and established Deshi Fund, which fulfilled the conditions for the establishment of a project company. On 4 March 2015, at the 18th meeting of the 7th session of the Board, it was considered and approved that the Company and Deshi Fund would jointly make capital contribution and establish Hanwei Company to jointly develop Parcel No. 2. The registered capital of Hanwei Company was RMB100 million, which was contributed by the Company (RMB70 million; 70%) and Deshi Fund (RMB30 million; 30%) respectively. So far, a management team of the project company has been preliminarily set up, personnel specialised in various fields has gradually reported to work and each tasks proceeded orderly as planned.

The construction of the two new projects invested by the Company were implemented smoothly as planned, among which 61.8% of the total amount of work estimated for Changjia Expressway has been completed as at the end of the Reporting Period, the establishment of the project company for Zhendan Expressway has been completed in the first half of the year and its registered capital has basically been paid up. The preparation for project construction is in progress.

REPORT OF THE DIRECTORS

- After Guangjing Xicheng Company merged and acquired Xiyi Company in the Reporting Period, the operating income of the Reporting Period amounted to approximately RMB543,078,000 in aggregate, representing a year-on-year increase of approximately 2.13%; the operating costs amounted to approximately RMB174,736,000, representing a year-on-year increase of 5.51%; the income from investment recorded during the Reporting Period was RMB98,964,000, representing a year-on-year increase of approximately 18.83% as the dividends from Jiangsu Leasing calculated in the available-for-sale equity instruments increased on a year-on-year basis and the revenue from investment contributed by associates increased. Guangjing Xicheng Company recorded a net profit of RMB301,104,000 in the Reporting Period, representing a year-on-year increase of approximately 6.12%.
- After the completion of acquisition of Ningchang Zhenli Company, debts were transferred and the financial expenses were reduced, resulting in a turnaround from loss to profit making in 2015. The profit can be used to make up losses incurred in the prior 5 years, which was eligible for recognizing deferred income tax assets. There was a one-off income tax reduction, which increased the profit after tax. The net profit during the Reporting Period amounted to RMB240,092,000.
- During the Reporting Period, Ninghu Investment redeemed the fund it held, and the year-on-year investment income increased; and the fair value of its financial assets held for trading increased, resulting in a year-on-year increase of net book profit of approximately 219.27%.
- Please refer to the section headed "Business Review and Analysis of Operations" in this report for the operational performance and change in results for Ninghu Properties.

2. Operations of Key Associates

During the Reporting Period, the profit of some associates in which the Group had a participating interest increased. As a result, the investment income of the Group amounted to RMB276,782,000, representing a year-on-year increase of approximately 43.87%, which accounted for 15.62% of the Group's net profit. The associates contributed an investment income of RMB197,407,000, representing a year-on-year increase of approximately 16.52%. This was primarily attributable to the increase in toll revenue brought by the increased traffic volumes of each item, and the decrease in financial expenses. A significant year-on-year increase in the growth of net profit was recorded in the Reporting Period. Operating results of some key associates are set out below:

Company name	Principal business	Investment cost RMB'000	Equity interest	Net profit	Investment income contribution RMB'000	Percentage	Year-on-year Change %
			attributable to the Company %	attributable to the shareholders of the associates RMB'000		over the Company's net profit %	
Sujiahang Company	Management and operation of the Jiangsu Section of Sujiahang Expressway	526,091	33.33	217,731	72,570	4.10	17.47
Yangtze Bridge Company	Mainly engaged in the management and operation of Jiangyin Bridge	631,159	26.66	196,957	52,509	2.96	14.96
Yanjiang Company	Mainly engaged in the management and operation of Yanjiang Expressway	1,466,200	29.81	233,609	75,362	4.25	15.47

REPORT OF THE DIRECTORS

III. Analysis of Core Competitiveness

The major business of the Group is the operation and management basic transport infrastructure. Our operations are located in one of the most vibrant economic regions in the PRC, being the Yangtze River Delta. The roads and bridges owned or invested by the Group are key land transport corridors of the two important industrial belts along the Yangtze River and Shanghai-Nanjing in the southern part of Jiangsu, putting us in a leading position in the expressway network in southern Jiangsu. Unique geographical advantage, quality assets network and efficient operating system are the distinct and core competitive edges of the Group.

In the first half of the year, the truck flow volume of the western section of Shanghai-Nanjing Expressway, the core asset of the Company, was still subject to the diversion effect of Ningchang Expressway. In order to eliminate the competition of parallel roads, effective integration of expressways within the region was implemented. The Group had completed the acquisition of equity interests of Ningchang Zhenli Company and Xiyi Company during the Reporting Period. The new toll highway mileage controlled or invested by the Group increased from approximately 252 kilometers to 1,102 kilometers, which expanded the asset size, and resulted in an effective control of the traffic volume of roads within Shanghai-Nanjing passage, promoted the leading position in southern Jiangsu road network, thereby enabled further consolidation of the Group's core competitiveness.

4. Outlook and Plans

(I) Analysis of Operating Environment

In the first half of this year, the economy of China started stably and the "steady-growth policy (穩增長)" will pay more attention to efficiency. The overall macroeconomic environment in the second half of the year is expected to maintain the stable and improved momentum as in the first half of the year. The external business environment of the Group's major business of the toll road is expected to continue to be stable. Meanwhile, in July, the consultation draft of "Regulation on the Administration of Toll Roads" (收費公路管理條例) was reissued by the Ministry of Transportation, which further amended and supplemented based on the opinions sought in 2013, and had positive significance for the long term healthy development of the toll road industry. However, the issue of final terms still carries uncertainties.

In the second half of the year, as the diversion impact on Ningchang Expressway is becoming stable, the truck flow of Shanghai-Nanjing Expressway is expected to recover. Meanwhile, after the acquisition of equity interest of Ningchang Zhenli Company and Xiyi Company, the economies of scale brought by the new projects to the Group's major operating business are gradually shown. Therefore, the Company expects the overall future business environment will be positive.

(II) Highlights of Work in the Second Half of This Year

Taking into account the overall business environment in the second half of the year, the Group will focus on the following business development priorities to ensure the fulfillment of the year-round profit target and prepare for future strategic development:

- (1) To plan for the Group's "Thirteenth Five-Year" Development Strategy. The Group will conduct an in-depth analysis of the Group's internal and external environment changes and core competitiveness after the economic development of China shifted to the new normal, study the core business development and expressway industrial chain extension under the reform of State-owned enterprises and the rapid development of infrastructure franchise operation and mobile Internet, re-examine the Group's strategic positioning and strategic direction, plan for the formulation of suitable "Thirteenth Five-Year" strategic measures, and thereby guide the Group's new reform and development.
- (2) To steadily facilitate the balanced development of the Group's diversified business. The Group will speed up the development and sales of real estate projects and will continuously enhance the profit contribution of property business. The Group will also continue to focus on the investment opportunities of relevant areas and explore an appropriate multi-industry investment pattern that aligns with the Company's strategy.

REPORT OF THE DIRECTORS

- (3) To develop financing innovation and ensure fund needs. The Group will pay close attention to any change in the fiscal policy and financing environment, strengthen the application of the direct financing tool within the capital market, continue to explore financing channels, reduce the reliance on bank loans, and will provide sufficient capital protection for the sake of the Group's strategic development. It will also actively use the contemporary financing derivative tools, optimize the structure of interest-bearing obligation, implement reasonable restructuring for the new debts as a result of project acquisition, effectively reduce the cost of financing and give full play to the financial synergy.
- (4) To facilitate the design and development of phase II of informatized construction projects. On the basis of the implementation of the phase I digitalization and informatization of the operation and management of expressways, the Group will strengthen the optimization of each hardware and software platforms and comprehensiveness of systems. The Group will make the best effort on the design, development and construction of the phase II integrated management system, optimise the management procedures and will strengthen the Company's internal control and strategic support.

V. Profit Distribution and its Implementation

(I) Execution or Adjustments of profit distribution scheme implemented in the Reporting Period

As approved at the 2014 annual general meeting, the Company distributed a cash dividend of RMB0.38 (tax inclusive) per share to all shareholders on the basis of a total of 5,037,747,500 shares in issue at the end of 2014, representing a payout ratio of 74.35%. Such profit distribution scheme was implemented on 10 July 2015.

(II) Profit Distribution Plan or Plan to Convert Surplus Reserves into Share Capital proposed for this interim period

Whether make profit distribution or convert surplus reserves into share capital	No
Number of bonus share for each share (<i>share</i>)	0
Amount of cash dividend for each share (<i>Yuan</i>) (including tax)	0
Number of shares converted for each share (<i>share</i>)	0

Relevant Explanation on Profit Distribution Plan or Plan to Convert Surplus Reserves into Share

The Board has recommended not to distribute profits for the six months ended 30 June 2015 (for the corresponding period in 2014: nil), and did not have any proposal to convert surplus reserves into share capital.

Description and category of the events

Inquiry Index

In order to expand the scale of the Group's major business of toll road, eliminate the impact of diversion brought by Ningchang Expressway (the parallel road) on the section west of Wuxi of Shanghai-Nanjing Expressway and enhance the economies of scale of the management of Guangjing Xicheng Company, during the Reporting Period, the Company actively engaged in the merger and acquisition of Ningchang Zhenli Company and Xiyi Company. On 30 December 2014, it was considered and approved at the 17th Meeting of the Seventh Session of the Board that the Company might acquire 100% equity interests of Ningchang Zhenli Company in cash of RMB502 million and undertake all of its interest-bearing debts and capitalise such debts into equity, and that the subsidiary Guangjing Xicheng Company might acquire 100% equity interests of Xiyi Company in cash of RMB662 million and conduct the merger and acquisition of Xiyi Company. On 12 March 2015, the two assets acquisition and merger projects were considered and approved at the first extraordinary general meeting in 2015. Upon the completion of approval procedures for the two merger and acquisition projects, the Company had performed follow-up work relating to the assignment of debts and the registration of changes in industry and commerce information. On 24 June 2015, the Company received the notice on approval for cancellation of registration of Xiyi Company from Wuxi Administration for Industry and Commerce and Guangjing Xicheng Company's acquisition and merger of Xiyi Company were all completed. On 25 June 2015, Ningchang Zhenli Company finished the registration of changes in industry and commerce information, and the relevant procedures of assignment of debts and capitalisation of debts into equity were all completed.

SIGNIFICANT MATTERS

On 27 March 2015, the Company and its subsidiary Guangjing Xicheng Company entered into maintenance contracts respectively with Jiangsu Sundian, for the repair and maintenance service of Shanghai-Nanjing Expressway, as well as Guangjing Expressway and Xicheng Expressway, respectively, with the term from 27 March 2015 to 31 December 2015, the maximum repair and maintenance fees of the two contracts will not exceed RMB50,000,000 and RMB20,000,000 respectively.

For the details related to this transaction and the relevant approval, please refer to the announcement on the continuing related party/connected transactions published by the Company on 27 March 2015 and 30 March 2015 on the website of the SSE: www.sse.com.cn and the website of the Stock Exchange: www.hkexnews.hk and the website of the Company: www.jsexpressway.com.

2. Events disclosed in provisional announcements, but with subsequent development or changes during implementation

(1) Xiyi Company entered into "Expressway Network Management Services Framework Agreement" with Network Operation Company. The term of the agreement commenced on 4 January 2014 and will end on 31 December 2016. The standard fee rate chargeable by Network Operation Company is based on the standards as approved by the Jiangsu Price Bureau under the Official Response of the Provincial Price Bureau on the Inter-network Service Fee Standards of Expressways. A fee standard of 0.2% is applied to toll income from highways and bridges received in cash, while 2% is applied to non-cash income. Based on the fees actually paid in 2014 and the forecast for the toll income, it is estimated that the maximum annual technical service fee for 2015 and 2016 will not exceed RMB3,000,000 and RMB4,000,000, respectively. For the details related to this transaction and the relevant approval, please refer to the announcement on the related party/connected transactions published by the Company on 27 April 2015 on the website of the SSE: www.sse.com.cn and on 24 April 2015 on the website of the Stock Exchange: www.hkexnews.hk and the website of the Company: www.jsexpressway.com.

As at the end of this Reporting Period, Xiyi Company has been merged by Guangjing Xicheng Company, the agreement was to be performed by Guangjing Xicheng Company.

(2) Xiyi Company entered into "Gaocheng Service Area Petrol Station Lease Agreement" with Jiangsu Petroleum to continue with leasing of the petrol stations on both sides of Gaocheng Service Area along the Xiyi Expressway to Jiangsu Petroleum. The agreement was effective from 1 January 2015 to 31 December 2017. Upon negotiation, the calculation of rent was determined to be as follows: based on the annual fuel sales volume of the petrol stations at RMB140 per tonne, together with the guaranteed rental fees of RMB500,000 per year. Based on the actual rent paid for 2014 and estimated growth of fuel sales volume in the coming three years, the rental fees for 2015, 2016 and 2017 are estimated to be not more than RMB1,000,000, RMB1,100,000 and RMB1,200,000, respectively. For the details related to this transaction and the relevant approval, please refer to the announcement on the related party/connected transactions published by the Company on 27 April 2015 on the website of the SSE: www.sse.com.cn and on 24 April 2015 on the website of the Stock Exchange: www.hkexnews.hk and the website of the Company: www.jsexpressway.com.

As at the end of this Reporting Period, Xiyi Company has been merged by Guangjing Xicheng Company, the agreement was to be performed by Guangjing Xicheng Company.

SIGNIFICANT MATTERS

- (3) According to the "2015 Routine Maintenance Work Contractor Agreement" entered into by Xiyi Company and Jiangsu Sundian, Jiangsu Sundian would be granted the designated work with the total amount of construction fees not exceeding the maintenance service fees for 2015 and a cap of approximately RMB7,000,000 contemplated under the agreement. The capped maintenance service fee was determined based on the estimated construction in 2015, and having considered the actual implementation of transaction in 2014. For the details related to this transaction and the relevant approval, please refer to the announcement on the related party/connected transactions published by the Company on 27 April 2015 on the website of the SSE: www.sse.com.cn and on 24 April 2015 on the website of the Stock Exchange: www.hkexnews.hk and the website of the Company: www.jsexpressway.com.

As at the end of this Reporting Period, Xiyi Company has been merged by Guangjing Xicheng Company, the agreement was to be performed by Guangjing Xicheng Company.

VIII. Appointment or removal of Auditors

Applicable Not Applicable

Explanation of appointment or removal of auditors

The reappointment of Deloitte as the domestic auditor of the Company for 2015 was approved at the Company's 2014 Annual General Meeting. The audit fees amounted to RMB2,400,000 for 2015. Deloitte, a practicing certified public accountants firm approved by the Ministry of Finance and the CSRC to act as a reporting accountant and/or an auditor for Mainland incorporated companies listed in Hong Kong, was engaged to audit the financial statements of the Company for the fiscal year ended 31 December 2015 prepared under the PRC Accounting Standards and to undertake the duties required to be performed by international auditors in accordance with the Hong Kong Listing Rules.

Deloitte was also appointed as the internal control auditor of the Company for 2015 at the general meeting. The audit fee was RMB800,000.

Deloitte has been providing audit services to the Company for twelve consecutive years since 2003. In 2008, 2010 and 2014, such auditing firm changed the partner responsible for the audit services provided to the Company.

XI. Corporate Governance Status

The Company made ongoing improvements on the corporate governance system and the operating procedures according to the requirements of regulatory authorities and latest rules and regulations, with a view to enhancing the corporate governance standards of the Company. The actual governance situation of the Company did not deviate from the Governance Standards for Listed Companies stipulated by the CSRC and the requirements of the relevant laws and regulations. There was no administrative punishment, reprimand or other public condemnation imposed against the Company, the Board, the supervisory committee as well as directors, supervisors, senior management members by regulatory authorities; and the Company fully adopted all code provisions of the Corporate Governance Code in Appendix 14 of the Hong Kong Listing Rules. For details of the Company's governance practices, please refer to the relevant sections in the Company's 2014 Annual Report.

During the Reporting Period, the Company guaranteed the effectiveness of corporate governance through standardizing and implementing the "three-meeting" decision-making mechanism ("三會" 決策機制). By further enhancing the awareness on standardized operation, being better adapted to the transformation in supervision, strengthening the implementation of latest regulatory requirements, strictly implementing the various existing governance rules and improving internal responsibility mechanism, the Company aims to ensure proper execution of the system so as to further raise the Company's independent governance capability. The Company increased efforts on self-inspection over key regulatory fields, including insider trading, misappropriation of funds, related party/connected transactions and so forth, as well as ensured the carrying out of necessary legal approval procedures for all significant events, strictly controlled violation risks of all kinds and further improved the Company's standard operational ability.

SIGNIFICANT MATTERS

1. Compliance with the Corporate Governance Code

The Company has used its endeavours to uphold its corporate governance standards. During the Reporting Period, the Company has complied with the requirements of the domestic and overseas securities regulators and the latest rules and regulations. The Company has fully adopted all code provisions of the Corporate Governance Code in Appendix 14 of the Hong Kong Listing Rules and met the requirements of the recommended best practices thereof in certain aspects and no deviation or breach was found.

2. Compliance with the Model Code

Having made specific enquiries to all the directors of the Company, the directors of the Company have fully complied with the provisions on securities transactions under the Model Code for Securities Transactions by Directors of Listed Issuers under Appendix 10 of the Hong Kong Listing Rules during the Reporting Period. The Company has also formulated the "Model Code for Securities Transactions by Directors, Supervisors, Senior Management and Relevant Employees", the relevant requirements in which are no less exacting than the required standard set out in Appendix 10 of the Hong Kong Listing Rules, to ensure the relevant personnel's compliance with the code in carrying out securities transactions.

3. Audit Committee

Members of the Eighth session of the Board were elected by the 2014 annual general meeting. The Board elected Mr. Chen Liang, Mr. Zhang Erzhen and Mr. Du Wenyi as the members of the Audit Committee and elected Mr. Chen Liang as the convener of the committee. Mr. Du Wenyi is a non-executive director. Mr. Chen Liang and Mr. Zhang Erzhen, being independent non-executive directors of the Company, have extensive experiences in financial and economic management, as well as appropriate professional qualifications as stipulated by Rule 3.10(2) of the Hong Kong Listing Rules. Members of the Audit Committee are not connected with the current or former auditors of the Company.

The Audit Committee has reviewed the interim financial report of the Company for the six months ended 30 June 2015 and had sufficient communication with the Company's management in the course of discharging their duties and proposed to the Board for the approval of the publication of the interim financial report for the six months ended 30 June 2015.

DIRECTORS, SUPERVISORS AND SENIOR MANAGEMENT

III. Other explanations

(I) Independent Non-executive Directors

The Company has appointed sufficient number of independent non-executive directors. Mr. Zhang Erzhen, Mr. Ge Yang, Mr. Zhang Zhu Ting and Mr. Chen Liang were appointed as independent non-executive directors of the Eighth session of the Board of the Company, accounting for more than one-third of the members of the Board. Four independent non-executive directors are currently serving at renowned universities in the PRC and are senior experts in the fields of economic management and real estate studies, industry policies and regulations, financial accounting and are well-versed with academic theories and management experience. Independent directors were appointed as members of various committees of the Board. Independent non-executive directors accounted for a majority in the Audit Committee, the Nomination Committee and the Remuneration and Appraisal Committee, and an independent non-executive director acted as the Chairman at each of these committees.

(II) Staff Salary and training

As at 30 June 2015, the Group (including controlled subsidiaries) had 6,049 staff, comprising 728 managerial staff and 5,321 manufacturing staff.

The Company adopts a position-based salary system with working performance being the motivating factor. Staff salary comprises of three parts, namely monthly salary, performance bonus and fringe benefits. Salaries are determined in accordance with the comprehensive performance appraisal results of each staff, with reference to the principle of "Salary by Position, Award by Performance", thereby raising the fairness and competitiveness of the salary system. In accordance with statutory regulations, the Company provides its employees with basic old age insurance, as well as arranges a number of social security protection schemes such as medical insurance, work injury insurance, maternity insurance, unemployment insurance and enterprise annuity.

In order to further reform its remuneration system, better motivate staff and widen the career paths of employees, in the first half of the year, the Human Resources Department is conducting the preliminary trial work steps by steps in a proactive manner to fully utilize the incentive function of the remuneration system. The Group implemented supporting measures in accordance with the Labour Contract Law, to constantly improve the working hours, and applied irregular working hour system for 251 managerial positions and 301 manufacturing positions, to increase the initiative of operation and control and reduce labour costs. Meanwhile, the Company endeavored to build a harmonious labour-relationship and won the title of the "Enterprise with Exemplary and Harmonious labour-relationship in Jiangsu Province (江蘇省模範勞動關係和諧企業)", which fully represented the result of further strengthened mutual trust between the Company and employees, win-win and mutually-growing.

In terms of staff training, in the first half of the year, the Company provided different levels of training schemes for various staff focusing on different professional skills, including the special training "Learning management from a financial perspective 《從財務視角學管理》" conducted by the management of organization and the middle management level; internal control evaluation training conducted in order to improve the level of business knowledge and the actual ability of internal control evaluators; propagation training of safety standardization conducted in accordance with the overall plan and requirements of the company's safety standardization; as well as training for team-building of managerial staff, rotation training for new staff and professional technique training for each positions. In the first half of the year, there were 854 staff participated in the training and more than 400 professional books, including management, legal texts, safety education CDs, were allocated for middle management level and basic units. These training continuously improved the business capability and competitiveness of staff, and actively facilitated the value-adding in human resources.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE PERIOD ENDED 30 JUNE 2015

I. BASIC INFORMATION ABOUT THE COMPANY

Jiangsu Expressway Co., Ltd. (the “Company”) is a joint-stock limited company incorporated in Nanjing, Jiangsu province on 1 August 1992, with headquarter located in Nanjing. The principal activities of the Company and its subsidiaries (collectively referred it as the “Group”) mainly include: construction, operation and management of the Jiangsu section of Shanghai-Nanjing Expressway (the “Shanghai-Nanjing Expressway”), the Jiangsu section of the G312, Nanjing-Lianyungang Class 1 Highway – Nanjing Section (“Nanjing-Lianyungang Highway”) and other toll roads in Jiangsu Province PRC, and the provision of passenger transport services and other supporting services along the toll roads.

The Company issued 1,222,000,000 shares on the Stock Exchange of Hong Kong Limited (“H shares”) and 150,000,000 shares on the Shanghai Stock Exchange (“A shares”) with par value of RMB1 in June 1997 and December 2000 respectively.

Subsidiaries consolidated in the financial statements are listed in Note VIII “Equity in other entities”. Details of the change in the scope of consolidated financial statements this year please refer to Note VII “Changes of Consolidated Financial Statement Scope”.

The parent company and ultimate shareholder of the Company is Jiangsu Communications Holding Company Limited (the “Communications Holding”).

The company and the consolidated financial are approved by the Board of Directors on 28 August 2015.

II. BASIS OF PREPARATION OF FINANCIAL STATEMENTS

Basis of preparation

The Group has adopted the Accounting Standards for Business Enterprises (“ASBE”) issued by the Ministry of Finance (“MOF”) (including the new and revised ASBE that has been issued in 2014) and related rules. The Group has disclosed relevant financial information in accordance with Information Disclosure and Presentation Rules for Companies Offering Securities to the Public No. 15 – General Provisions on Financial Reporting (Revised in 2014). In addition, the Group also disclosed relevant disclosure in accordance with the disclosure requirements of the Hong Kong Companies Ordinance and the Listing Rules of the Stock Exchange of Hong Kong Limited.

Basis of accounting and principle of measurement

The Group has adopted the accrual basis of accounting. Except for certain financial instruments which are measured at fair value, the Group adopts the historical cost as the principle of measurement in the financial statements. Where assets are impaired, provisions for asset impairment are made in accordance with relevant requirements.

Where the historical cost is adopted as the measurement basis, assets are recorded at the amount of cash or cash equivalents paid or the fair value of the consideration given to acquire them at the time of their acquisition. Liabilities are recorded at the amount of proceeds or assets received or the contractual amounts for assuming the present obligation, or, at the amounts of cash or cash equivalents expected to be paid to settle the liabilities in the normal course of business.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, regardless of whether that price is directly observable or estimated using valuation technique. Fair value measurement and disclosure in the financial statements are determined according to the above basis.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE PERIOD ENDED 30 JUNE 2015

II. BASIS OF PREPARATION OF FINANCIAL STATEMENTS *(continued)*

Basis of accounting and principle of measurement *(continued)*

Fair value measurements are categorized into Level 1, 2 or 3 based on the degree to which the inputs to the fair value measurements are observable and the significance of the inputs to the fair value measurement in its entirety, which are described as follows:

- Level 1 inputs are unadjusted quoted prices in active markets for identical assets or liabilities that the entity can access at the measurement date.
- Level 2 inputs are inputs, other than quoted prices included within Level 1, that are observable for the asset or liability, either directly or indirectly.
- Level 3 inputs are unobservable inputs for the asset or liability.

Going concern

As at 30 Jun 2015, the Group had total current liabilities in excess of total current assets of RMB5,930,024,831. As at 30 Jun 2015, the Group has available unutilized bank loan facilities of approximately RMB5,820,000,000 and authorized but not issued bonds of approximately RMB4,800,000,000 related to private placement note, short-term bonds, super short-term bonds. The Group's management believes the facilities above are to provide all necessary financial support to the Group in the foreseeable future so as to maintain the Group's ability to continue as a going concern, the financial statements have been prepared on a going concern basis.

III. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES

The Group are principally engaged in toll road operation. The Group determines the specific accounting policies according to the toll road industry characteristics, shown mainly on the bad debt provision for receivables, depreciation for fixed assets, amortization for toll road operation rights and recognition timing of revenue. Refer to Note III 10, 14, 17 and 21 for detail specific accounting policies. For description of significant accounting judgments, estimation and assumption made by management, see Note IV.

1. Statement of compliance with the ASBE

The financial statements of the Company have been prepared in accordance with ASBE, and present truly and completely, the Company's and consolidated financial position as of 30 June 2015, and the Company's and consolidated results of operations and cash flows for the period then ended.

2. Accounting period

The Group has adopted the calendar year as its accounting year, i.e. from 1 January to 31 December.

3. Business Cycle

Except for the real estate industry, the Group's business cycle is short, the determining criterion of asset-liability liquidity is 12 months. The real estate industry business cycle is from real estate development to sales realization, generally in more than 12 months, the specific period is determined according to the development conditions of the project, and its criterion of asset-liability liquidity is based on the business cycle.

4. Functional currency

Renminbi ("RMB") is the currency of the primary economic environment in which the Company and its subsidiaries operate. Therefore, the Company and its subsidiaries choose RMB as their functional currency. The Group adopts RMB to prepare its financial statements.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE PERIOD ENDED 30 JUNE 2015

III. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES *(continued)*

5. The accounting treatment of business combinations involving enterprises under common control and business combinations not involving enterprises under common control

Business combinations are classified into business combinations involving enterprises under common control and business combinations not involving enterprises under common control.

5.1. *Business combinations involving enterprises under common control*

A business combination involving enterprises under common control is a business combination in which all of the combining enterprises are ultimately controlled by the same party or parties both before and after the combination, and that control is not transitory.

Assets and liabilities obtained shall be measured at their respective carrying amounts as recorded by the combining entities at the date of the combination. The difference between the carrying amount of the net assets obtained and the carrying amount of the consideration paid for the combination is adjusted to the share premium in capital reserve. If the share premium is not sufficient to absorb the difference, any excess shall be adjusted against retained earnings.

Costs that are directly attributable to the combination are charged to profit or loss in the period in which they are incurred.

5.2. *Business combinations not involving enterprises under common control and goodwill*

A business combination not involving enterprises under common control is a business combination in which all of the combining enterprises are not ultimately controlled by the same party or parties before and after the combination.

The cost of combination is the aggregate of the fair values, at the acquisition date, of the assets given, liabilities incurred or assumed, and equity securities issued by the acquirer in exchange for control of the acquiree. The intermediary expenses incurred by the acquirer in respect of auditing, legal services, valuation and consultancy services, etc. and other associated administrative expenses attributable to the business combination are recognized in profit or loss when they are incurred.

The acquiree's identifiable assets, liabilities and contingent liabilities, acquired by the acquirer in a business combination, that meet the recognition criteria shall be measured at fair value at the acquisition date.

Where the cost of combination exceeds the acquirer's interest in the fair value of the acquiree's identifiable net assets, the difference is treated as an asset and recognized as goodwill, which is measured at cost on initial recognition. Where the cost of combination is less than the acquirer's interest in the fair value of the acquiree's identifiable net assets, the acquirer firstly reassesses the measurement of the fair values of the acquiree's identifiable assets, liabilities and contingent liabilities and measurement of the cost of combination. If after that reassessment, the cost of combination is still less than the acquirer's interest in the fair value of the acquiree's identifiable net assets, the acquirer recognizes the remaining difference immediately in profit or loss for the current period.

Goodwill arising on a business combination is measured at cost less accumulated impairment losses, and is presented separately in the consolidated financial statements.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE PERIOD ENDED 30 JUNE 2015

III. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES *(continued)*

6. Preparation of consolidated financial statements

The scope of consolidation in the consolidated financial statements is determined on the basis of control. Control exists when the investor has power over the investee; is exposed, or has rights, to variable returns from its involvement with the investee; and has the ability to use its power over the investee to affect its returns. The Group reassesses whether or not it controls an investee if facts and circumstances indicate that there are changes of the above elements of the definition of control.

Consolidation of a subsidiary begins when the Group obtains control over the subsidiary and ceases when the Group loses control of the subsidiary.

For a subsidiary disposed of by the Group, the operating results and cash flows before the date of disposal (the date when control is lost) are included in the consolidated income statement and consolidated statement of cash flows, as appropriate.

For a subsidiary acquired through a business combination not involving enterprises under common control, the operating results and cash flows from the acquisition date (the date when control is obtained) are included in the consolidated income statement and consolidated statement of cash flows, as appropriate.

No matter when the business combination occurs in the Reporting Period, subsidiaries acquired through a business combination involving enterprises under common control or the party being absorbed under merger by absorption are included in the Group's scope of consolidation as if they had been included in the scope of consolidation from the date when they first came under the common control of the ultimate controlling party. Their operating results and cash flows from the beginning of the earliest Reporting Period or from the date when they first came under the common control of the ultimate controlling party are included in the consolidated income statement and consolidated statement of cash flows, as appropriate.

The significant accounting policies and accounting periods adopted by the subsidiaries are determined based on the uniform accounting policies and accounting periods set out by the Company. The effects of all intra-group transactions are eliminated on consolidation.

The portion of subsidiaries' equity that is not attributable to the Company is treated as minority interests and presented as "minority interests" in the consolidated balance sheet within shareholders' equity. The portion of net profits or losses of subsidiaries for the period attributable to minority interests is presented as "minority interests" in the consolidated income statement below the "net profit" line item.

When the amount of loss for the period attributable to the minority shareholders of a subsidiary exceeds the minority shareholders' portion of the opening balance of owners' equity of the subsidiary, the excess amount are still allocated against minority interests.

Acquisition of minority interests or disposal of interest in a subsidiary that does not result in the loss of control over the subsidiary is accounted for as equity transactions. The carrying amounts of the Company's interests and minority interests are adjusted to reflect the changes in their relative interests in the subsidiary. The difference between the amount by which the minority interests are adjusted and the fair value of the consideration paid or received is adjusted to capital reserve under owners' equity. If the capital reserve is not sufficient to absorb the difference, the excess are adjusted against retained earnings.

When the Group loses control over a subsidiary due to disposal of certain equity interest or other reasons, any retained interest is re-measured at its fair value at the date when control is lost. The difference between (i) the aggregate of the consideration received on disposal and the fair value of any retained interest and (ii) the share of the former subsidiary's net assets cumulatively calculated from the acquisition date according to the original proportion of ownership interest is recognized as investment income in the period in which control is lost, and at the same time adjusted against goodwill. Other comprehensive income associated with investment in the former subsidiary is reclassified to investment income in the period in which control is lost.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE PERIOD ENDED 30 JUNE 2015

III. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES *(continued)*

7. Cash and cash equivalents

Cash comprises cash on hand and deposits that can be readily withdrawn on demand. Cash equivalents are the Group's short-term, highly liquid investments that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

8. Translation of transactions denominated in foreign currencies

A foreign currency transaction is recorded, on initial recognition, by applying the spot exchange rate on the date of the transaction.

At the balance sheet date, foreign currency monetary items are translated into RMB using the spot exchange rates at the balance sheet date. Exchange differences arising from the differences between the spot exchange rates prevailing at the balance sheet date and those on initial recognition or at the previous balance sheet date are recognized in profit or loss for the period, except that (1) exchange differences related to a specific-purpose borrowing denominated in foreign currency that qualify for capitalization are capitalized as part of the cost of the qualifying asset during the capitalization period; (2) exchange differences related to hedging instruments for the purpose of hedging against foreign currency risks are accounted for using hedge accounting; (3) exchange differences arising from available-for-sale non-monetary items (such as shares) denominated in foreign currencies and changes in the carrying amounts (other than the amortized cost) of available-for-sale monetary items are recognized as other comprehensive income.

Foreign currency non-monetary items measured at historical cost are translated to the amounts in functional currency at the spot exchange rates on the dates of the transactions and the amounts in functional currency remain unchanged. Foreign currency non-monetary items measured at fair value are re-translated at the spot exchange rate on the date the fair value is determined. Difference between the re-translated functional currency amount and the original functional currency amount is treated as changes in fair value (including changes of exchange rate) and is recognized in profit and loss or as other comprehensive income.

9. Financial instruments

Financial assets and financial liabilities are recognized when the Group becomes a party to the contractual provisions of the instrument. Financial assets and financial liabilities are initially measured at fair value. For financial assets and financial liabilities at fair value through profit or loss, transaction costs are immediately recognized in profit or loss. For other financial assets and financial liabilities, transaction costs are included in their initial recognized amounts.

9.1. *Effective interest method*

The effective interest method is a method of calculating the amortized cost of a financial asset or a financial liability (or a group of financial assets or financial liabilities) and of allocating the interest income or interest expense over the relevant period, using the effective interest rate. The effective interest rate is the rate that exactly discounts estimated future cash flows through the expected life of the financial asset or financial liability or, where appropriate, a shorter period to the net carrying amount of the financial asset or financial liability.

When calculating the effective interest rate, the Group estimates future cash flows considering all contractual terms of the financial asset or financial liability (without considering future credit losses), and also considers all fees paid or received between the parties to the contract giving rise to the financial asset and financial liability that are an integral part of the effective interest rate, transaction costs, and premiums or discounts, etc.

9.2. *Classification, recognition and measurement of financial assets*

On initial recognition, the Group's financial assets are classified into one of the four categories, including financial assets at fair value through profit or loss, held-to-maturity investments, loans and receivables, and available-for-sale financial assets. All regular way purchases or sales of financial assets are recognized and derecognized on a trade date basis.

The Group has no held-to-maturity investments.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE PERIOD ENDED 30 JUNE 2015

III. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES *(continued)*

9. Financial instruments *(continued)*

9.2. Classification, recognition and measurement of financial assets *(continued)*

9.2.1. Financial assets at fair value through profit or loss ("FVTPL")

Financial assets at FVTPL include financial assets held for trading and those designated as at fair value through profit or loss.

A financial asset is classified as held for trading if one of the following conditions is satisfied: (i) It has been acquired principally for the purpose of selling in the near term; or (ii) On initial recognition it is part of a portfolio of identified financial instruments that the Group manages together and there is objective evidence that the Group has a recent actual pattern of short-term profit-taking; or (iii) It is a derivative that is not designated and effective as a hedging instrument, or a financial guarantee contract, or a derivative that is linked to and must be settled by delivery of an unquoted equity instrument (without a quoted price in an active market) whose fair value cannot be reliably measured.

A financial asset may be designated as at FVTPL upon initial recognition only when one of the following conditions is satisfied: (i) Such designation eliminates or significantly reduces a measurement or recognition inconsistency that would otherwise result from measuring assets or recognizing the gains or losses on them on different bases; or (ii) The financial asset forms part of a group of financial assets or a group of financial assets and financial liabilities, which is managed and its performance is evaluated on a fair value basis, in accordance with the Group's documented risk management or investment strategy, and information about the grouping is reported to key management personnel on that basis; (iii) it is a qualifying hybrid instrument containing embedded derivatives.

Financial assets at FVTPL are subsequently measured at fair value. Any gains or losses arising from changes in the fair value and any dividend or interest income earned on the financial assets are recognized in profit or loss.

9.2.2. Loans and receivables

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. Financial assets classified as loans and receivables by the Group include notes receivable, accounts receivable, dividends receivable, and other receivables.

Loans and receivables are subsequently measured at amortised cost using the effective interest method. Gain or loss arising from derecognition, impairment or amortisation is recognised in profit or loss.

9.2.3. Available-for-sale financial assets

Available-for-sale financial assets include non-derivative financial assets that are designated on initial recognition as available for sale, and financial assets that are not classified as financial assets at fair value through profit or loss, loans and receivables or held-to-maturity investments.

Available-for-sale financial assets are subsequently measured at fair value, and gains or losses arising from changes in the fair value are recognised as other comprehensive income, except that impairment losses and exchange differences related to amortised cost of monetary financial assets denominated in foreign currencies are recognised in profit or loss, until the financial assets are derecognised, at which time the gains or losses are released and recognised in profit or loss.

Interests obtained and the dividends declared by the investee during the period in which the available-for-sale financial assets are held, are recognised in investment gains.

For investments in equity instruments that do not have a quoted market price in an active market and whose fair value cannot be reliably measured, and derivative financial assets that are linked to and must be settled by delivery of such unquoted equity instruments, they are measured at cost.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE PERIOD ENDED 30 JUNE 2015

III. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES *(continued)*

9. Financial instruments *(continued)*

9.3. Impairment of financial assets

The Group assesses at each balance sheet date the carrying amounts of financial assets other than those at fair value through profit or loss. If there is objective evidence that a financial asset is impaired, the Group determines the amount of any impairment loss. Objective evidence that a financial asset is impaired is evidence that, arising from one or more events that occurred after the initial recognition of the asset, the estimated future cash flows of the financial asset, which can be reliably measured, have been affected.

Objective evidence that a financial asset is impaired includes the following observable events:

- (1) Significant financial difficulty of the issuer or obligor;
- (2) A breach of contract by the borrower, such as a default or delinquency in interest or principal payments;
- (3) The Group, for economic or legal reasons relating to the borrower's financial difficulty, granting a concession to the borrower;
- (4) It becoming probable that the borrower will enter bankruptcy or other financial reorganisations;
- (5) The disappearance of an active market for that financial asset because of financial difficulties of the issuer;
- (6) Upon an overall assessment of a group of financial assets, observable data indicates that there is a measurable decrease in the estimated future cash flows from the group of financial assets since the initial recognition of those assets, although the decrease cannot yet be identified with the individual financial assets in the group. Such observable data includes:
 - Adverse changes in the payment status of borrower in the group of assets;
 - Economic conditions in the country or region of the borrower which may lead to a failure to pay the group of assets;
- (7) Significant adverse changes in the technological, market, economic or legal environment in which the equity instrument issuer operates, indicating that the cost of the investment in the equity instrument may not be recovered by the investor;
- (8) A significant or prolonged decline in the fair value of an investment in an equity instrument below its cost, such as the fair value of equity instrument at the balance sheet date is over 50% less than the initial investment cost (including 50%) or the period that is less than the initial investment cost lasts more than 12 months (including 12 months).
- (9) Other objective evidence indicating there is an impairment of a financial asset.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE PERIOD ENDED 30 JUNE 2015

III. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES *(continued)*

9. Financial instruments *(continued)*

9.3. Impairment of financial assets *(continued)*

- Impairment of financial assets measured at amortised cost

If financial assets carried at amortised cost are impaired, the carrying amounts of the financial assets are reduced to the present value of estimated future cash flows (excluding future credit losses that have not been incurred) discounted at the financial asset's original effective interest rate. The amount of reduction is recognised as an impairment loss in profit or loss. If, subsequent to the recognition of an impairment loss on financial assets carried at amortised cost, there is objective evidence of a recovery in value of the financial assets which can be related objectively to an event occurring after the impairment is recognised, the previously recognised impairment loss is reversed. However, the reversal is made to the extent that the carrying amount of the financial asset at the date the impairment is reversed does not exceed what the amortised cost would have been had the impairment not been recognised.

For a financial asset that is individually significant, the Group assesses the asset individually for impairment. For a financial asset that is not individually significant, the Group assesses the asset individually for impairment or includes the asset in a group of financial assets with similar credit risk characteristics and collectively assesses them for impairment. If the Group determines that no objective evidence of impairment exists for an individually assessed financial asset (whether significant or not), it includes the asset in a group of financial assets with similar credit risk characteristics and collectively reassesses them for impairment. Assets for which an impairment loss is individually recognised are not included in a group of financial assets with similar credit risk characteristics for collective assessment of impairment.

- Impairment of available-for-sale financial assets

When an available-for-sale financial asset is impaired, the cumulative loss arising from decline in fair value previously recognised directly in capital reserve is reclassified from the comprehensive income to profit or loss. The amount of the cumulative loss that is reclassified from capital reserve to profit or loss is the difference between the acquisition cost (net of any principal repayment and amortisation) and the current fair value, less any impairment loss on that financial asset previously recognised in profit or loss.

If, subsequent to the recognition of an impairment loss on available-for-sale financial assets, there is objective evidence of a recovery in value of the financial assets which can be related objectively to an event occurring after the impairment is recognised, the previously recognised impairment loss is reversed. The amount of reversal of impairment loss on available-for-sale equity instruments is recognised as other comprehensive income, while the amount of reversal of impairment loss on available-for-sale debt instruments is recognised in profit or loss.

- Impairment of financial assets measured at cost

If an impairment loss has been incurred on an investment in unquoted equity instrument (without a quoted price in an active market) whose fair value cannot be reliably measured, or on a derivative financial asset that is linked to and must be settled by delivery of such an unquoted equity instrument, the carrying amount of the financial asset is reduced to the present value of estimated future cash flows discounted at the current market rate of return for a similar financial asset. The amount of reduction is recognised as an impairment loss in profit or loss. The impairment loss on such financial asset is not reversed once it is recognized.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE PERIOD ENDED 30 JUNE 2015

III. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES *(continued)*

9. Financial instruments *(continued)*

9.4. *Transfer of financial assets*

The Group derecognises a financial asset if one of the following conditions is satisfied: (1) the contractual rights to the cash flows from the financial asset expire; or (2) the financial asset has been transferred and substantially all the risks and rewards of ownership of the financial asset is transferred to the transferee; or (3) although the financial asset has been transferred, the Group neither transfers nor retains substantially all the risks and rewards of ownership of the financial asset but has not retained control of the financial asset.

If the Group neither transfers nor retains substantially all the risks and rewards of ownership of a financial asset, and it retains control of the financial asset, it recognises the financial asset to the extent of its continuing involvement in the transferred financial asset and recognises an associated liability. The extent of the Group's continuing involvement in the transferred asset is the extent to which it is exposed to changes in the value of the transferred asset.

For a transfer of a financial asset in its entirety that satisfies the derecognition criteria, the difference between (1) the carrying amount of the financial asset transferred; and (2) the sum of the consideration received from the transfer and any cumulative gain or loss that has been recognised in other comprehensive income, is recognised in profit or loss.

If a part of the transferred financial asset qualifies for derecognition, the carrying amount of the transferred financial asset is allocated between the part that continues to be recognized and the part that is deorganised, based on the respective fair values of those parts. The difference between (1) the carrying amount allocated to the part deorganised; and (2) the sum of the consideration received for the part deorganised and any cumulative gain or loss allocated to the part deorganised which has been previously recognized in other comprehensive income, is recognized in profit or loss.

9.5. *Classification, recognition and measurement of financial liabilities*

Debt and equity instruments issued by the Group are classified into financial liabilities or equity on the basis of the substance of the contractual arrangements and definitions of financial liability and equity instrument.

On initial recognition, financial liabilities are classified into financial liabilities at fair value through profit or loss and other financial liabilities. The Group's financial liabilities mainly represent other financial liabilities.

9.5.1. *Other financial liabilities*

For a derivative liability that is linked to and must be settled by delivery of an unquoted equity instrument (without a quoted price in an active market) whose fair value cannot be reliably measured, it is subsequently measured at cost. Other financial liabilities (excluding liabilities with financial guarantee contracts) are subsequently measured at amortized cost using the effective interest method, with gains or losses arising from derecognition or amortization recognized in profit or loss.

9.5.2. *Financial guarantee contracts*

A financial guarantee contract is a contract by which the guarantor and the lender agree that the guarantor would settle the debts or bear obligations in accordance with terms of the contract in case the borrower fails to settle the debts. Financial guarantee contracts that are not designated as financial liabilities at fair value through profit or loss are initially measured at their fair values less the directly attributable transaction costs. Subsequent to initial recognition, they are measured at the higher of: (i) the amount determined in accordance with Accounting Standard for Business Enterprises No. 13 – Contingencies; and (ii) the amount initially recognized less cumulative amortization recognized in accordance with the principles set out in Accounting Standard for Business Enterprises No. 14 – Revenue.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE PERIOD ENDED 30 JUNE 2015

III. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES *(continued)*

9. Financial instruments *(continued)*

9.6. *Derecognition of financial liabilities*

The Group derecognizes a financial liability (or part of it) only when the underlying present obligation (or part of it) is discharged. An agreement between the Group (an existing borrower) and an existing lender to replace the original financial liability with a new financial liability with substantially different terms is accounted for as an extinguishment of the original financial liability and the recognition of a new financial liability.

When the Group derecognizes a financial liability or a part of it, it recognizes the difference between the carrying amount of the financial liability (or part of the financial liability) derecognized and the consideration paid (including any non-cash assets transferred or new financial liabilities assumed) in profit or loss.

9.7. *Offsetting financial assets and financial liabilities*

When the Group has a legal right that is currently enforceable to set off the recognised financial assets and financial liabilities, and intends either to settle on a net basis, or to realise the financial asset and settle the financial liability simultaneously, financial assets and financial liabilities are offset with the net amounts presented on the balance sheet. Otherwise, financial assets and financial liabilities are separately presented on the balance sheet without offsetting.

9.8. *Equity instruments*

An equity instrument is any contract that evidences a residual interest in the assets of the Group after deducting all of its liabilities. Equity instruments issued (including refinanced), repurchased, sold or cancelled by the Group are treated as changes in equity. Changes in the fair value of equity instruments are not recognised. Transaction costs related to equity transactions are deducted from equity.

The Group's distribution to holders of equity instruments are treated as a distribution of profits, payment of stock dividends does not affect total shareholders' equity.

10. Receivables

10.1. *Receivables for which bad debt provision is collectively assessed on a portfolio basis*

Basis or monetary criteria for determining an individually significant receivable

Accounts receivable that exceeds RMB2,500,000 or other receivable and prepayment that exceeds RMB750,000 is deemed as an individually significant receivable by the Group.

Method of determining provision for receivables that are individually significant and for which bad debt provision is individually assessed

For receivables that are individually significant, the Group assesses the receivables individually for impairment. For a financial asset that is not impaired individually, the Group includes the asset in a group of financial assets with similar credit risk characteristics and collectively assesses them for impairment. Receivables for which an impairment loss is individually recognized are not included in a collective assessment of impairment.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE PERIOD ENDED 30 JUNE 2015

III. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES *(continued)*

10. Receivables *(continued)*

10.2. Receivables for which bad debt provision is collectively assessed on a portfolio basis

Bad debt provision method for the portfolio according to the credit risk characteristics (Aging analysis, percentage of receivables, other methods etc.)

Portfolio 1	Receivables from government, petty cash advanced to employees, security deposit, toll road receivables and receivables from related parties of the Company and its subsidiaries. Bad debt provision is recognized individually.
Portfolio 2	Portfolio 2 mainly includes receivables arising from operating activities other than Portfolio 1. Bad debt provision is recognized based on percentage of accounts balances.

Portfolios where percentage of receivable method is used for bad debt provision:

Name of portfolio	Provision as a proportion of accounts receivable (%)	Provision as a proportion of other receivables (%)
Portfolio 2	<u>2</u>	<u>2</u>

10.3. Receivables that are not individually significant but for which bad debt provision is individually assessed:

Reasons for making individual bad debt provision	There exists objective evidence that the Group will not be able to collect the amount under the original terms of the receivable.
Bad debt provision methods	Impairment losses are recognized based on the difference between the carrying amount and the present value of estimated future cash flows.

11. Inventories

11.1. Categories of inventories

The Group's inventories mainly include spare parts for repairs and maintenance of toll roads infrastructure, petrol for sales and real estate under development etc. Inventories are initially measured at cost. Cost of real estate under development include payments for land acquisition, costs for infrastructure, construction and installation costs, borrowing costs capitalized before project is ready for intended use, and other relevant costs during development. Cost of other inventories comprises all costs of purchase, costs of conversion and other expenditures incurred in bringing the inventories to their present location and condition.

11.2. Valuation method of inventories upon delivery

The actual cost of real estate under development is calculated using the specific identification method. Other inventories are calculated using the first-in-first-out method.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE PERIOD ENDED 30 JUNE 2015

III. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES *(continued)*

11. Inventories *(continued)*

11.3. *Basis for determining net realizable value of inventories and provision methods for decline in value of inventories*

At the balance sheet date, inventories are measured at the lower of cost and net realizable value. If the net realizable value is below the cost of inventories, a provision for decline in value of inventories is made. Net realizable value is the estimated selling price in the ordinary course of business less the estimated costs of completion, the estimated costs necessary to make the sale and relevant taxes. Net realizable value is determined on the basis of clear evidence obtained, and takes into consideration the purposes of holding inventories and effect of post balance sheet events.

Provision for decline in value of other inventories is made based on the excess of cost of inventory over its net realizable value on an item-by-item basis.

After the provision for decline in value of inventories is made, if the circumstances that previously caused inventories to be written down below cost no longer exist so that the net realizable value of inventories is higher than their cost, the original provision for decline in value is reversed and the reversal is included in profit or loss for the period.

11.4. *Inventory count system*

The perpetual inventory system is maintained for stock system.

12. Long-term equity investments

12.1. *Basis for determining joint control and significant influence over investee*

Control is the power to govern the financial and operating policies of an entity so as to obtain benefits from its activities. Joint control is the contractually agreed sharing of control over an economic activity, and exists only when the strategic financial and operating policy decisions relating to the activity require the unanimous consent of the parties sharing control. Significant influence is the power to participate in the financial and operating policy decisions of the investee but is not control or joint control over those policies. When determining whether an investing enterprise is able to exercise control or significant influence over an investee, the effect of potential voting rights of the investee (for example, warrants and convertible debts) held by the investing enterprises or other parties that are currently exercisable or convertible shall be considered.

12.2. *Determination of investment cost*

For a long-term equity investment acquired through a business combination involving enterprises under common control, the initial investment cost of the long-term equity investment is the attributable share of the carrying amount of the shareholders' equity of the acquiree at the date of combination in the consolidated financial statements of the ultimate controlling party. The difference between the initial investment cost and the carrying amount of cash paid, non-cash assets transferred and liabilities assumed is adjusted to capital reserve. If the balance of capital reserve is not sufficient, any excess is adjusted to retained earnings. If the consideration of the combination is satisfied by the issue of equity securities, the initial investment cost of the long-term equity investment is the attributable share of the carrying amount of the shareholders' equity of the acquiree in the consolidated financial statements of the ultimate controlling party. The aggregate face value of the shares issued is accounted for as share capital. The difference between the initial investment cost and the aggregate face value of the shares issued is adjusted to capital reserve. If the balance of capital reserve is not sufficient, any excess is adjusted to retained earnings.

For a long-term equity investment acquired through business combination not involving enterprises under common control, the initial investment cost of the long-term equity investment is the cost of acquisition at the date of combination.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE PERIOD ENDED 30 JUNE 2015

III. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES *(continued)*

12. Long-term equity investments *(continued)*

12.2. Determination of investment cost *(continued)*

The intermediary fees incurred by the absorbing party or acquirer such as audit, legal, valuation and consulting fees, etc. and other related administrative expenses attributable to the business combination are recognised in profit or loss when they are incurred.

The long-term equity investment acquired otherwise than through a business combination is initially measured at its cost. When the entity is able to exercise significant influence or joint control (but not control) over an investee due to additional investment, the cost of long-term equity investments is the sum of the fair value of previously-held equity investments determined in accordance with Accounting Standard for Business Enterprises No. 22 – Financial Instruments: Recognition and Measurement (CAS 22) and the additional investment cost.

12.3. Subsequent measurement and recognition of profit or loss

12.3.1. Long-term equity investment accounted for using the cost method

Long-term equity investments in subsidiaries are accounted for using the cost method in the Company's separate financial statements. A subsidiary is an investee that is controlled by the Group.

Under the cost method, a long-term equity investment is measured at initial investment cost. When additional investment is made or the investment is recouped, the cost of the long-term equity investment is adjusted accordingly. Investment income is recognised in the period in accordance with the attributable share of cash dividends or profit distributions declared by the investee.

12.3.2. Long-term equity investment accounted for using the equity method

The Group accounts for investment in associates and joint ventures using the equity method. An associate is an entity over which the Group has significant influence; a joint venture is a joint arrangement whereby the Group has rights to the net assets of the arrangement.

Under the equity method, where the initial investment cost of a long-term equity investment exceeds the Group's share of the fair value of the investee's identifiable net assets at the time of acquisition, no adjustment is made to the initial investment cost. Where the initial investment cost is less than the Group's share of the fair value of the investee's identifiable net assets at the time of acquisition, the difference is recognised in profit or loss for the period, and the cost of the long-term equity investment is adjusted accordingly.

Under the equity method, the Group recognises its share of the net profit or loss and other comprehensive income made by the investee as investment income and other comprehensive income respectively, and adjust the carrying amount of the long-term equity investment accordingly; The carrying amount of the investment is reduced by the portion of any profit distributions or cash dividends declared by the investee that is distributed to the Group; the share of the changes in owners' equity of the investee other than those arising from net profit or loss, other comprehensive income and profit distribution are recognized in the capital reserve and the carrying amount of the long-term equity investment is adjusted accordingly. The Group recognises its share of the investee's net profit or loss after making appropriate adjustments based on the fair value of the investee's individual separately identifiable assets, etc. at the acquisition date. Where the accounting policies and accounting period adopted by the investee are not consistent with those of the Group, the Group shall adjust the financial statements of the investee to conform to its own accounting policies and accounting period, and recognise investment income and other comprehensive income based on the adjusted financial statements. For the Group's transactions with its associates and joint ventures where assets contributed or sold does not constitute a business, unrealised intra-group profits or losses are recognised as investment income or loss to the extent that those attributable to the Group's proportionate share of interest are eliminated. However, unrealised losses resulting from the Group's transactions with its associates and joint ventures which represent impairment losses on the transferred assets are not eliminated.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE PERIOD ENDED 30 JUNE 2015

III. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES *(continued)*

12. Long-term equity investments *(continued)*

12.3. Subsequent measurement and recognition of profit or loss *(continued)*

12.3.2. Long-term equity investment accounted for using the equity method *(continued)*

The Group discontinues recognising its share of net losses of the investee after the carrying amount of the long-term equity investment together with any long-term interests that in substance form part of its net investment in the investee is reduced to zero. If the Group has incurred obligations to assume additional losses of the investee, a provision is recognised according to the expected obligation, and recorded as investment loss for the period. Where net profits are subsequently made by the investee, the Group resumes recognising its share of those profits only after its share of the profits exceeds the share of losses previously not recognised.

12.4. Disposal of long-term equity investments

On disposal of a long-term equity investment, the difference between the proceeds actually received and the carrying amount is recognised in profit or loss for the period. For long-term equity investments accounted for using the equity method, if the remaining interest after disposal is still accounted for using the equity method, other comprehensive income previously recognised for using the equity method is accounted for on the same basis as would have been required if the investee had directly disposed of related assets or liabilities, and transferred to profit or loss for the period on a pro rata basis; owners' equity recognised due to changes in other owners' equity of the investee (other than net profit or loss, other comprehensive income and profit distribution) is transferred to profit or loss for the period on a pro rata basis. For long-term equity investments accounted for using the cost method, if the remaining interest after disposal is still accounted for using the cost method, other comprehensive income previously recognised for using the equity method or in accordance with the standards for the recognition and measurement of financial instruments before obtaining the control over the investee, is accounted for on the same basis as would have been required if the investee had directly disposed of related assets or liabilities, and transferred to profit or loss for the period on a pro rata basis; changes in other owners' equity in the investee's net assets recognised under the equity method (other than net profit or loss, other comprehensive income and profit distribution) is transferred to profit or loss for the period on a pro rata basis.

13. Investment Properties

Investment property is property held to earn rentals or for capital appreciation or both. It includes building that is leased out.

An investment property is measured initially at cost. Subsequent expenditures incurred for such investment property are included in the cost of the investment property if it is probable that economic benefits associated with an investment property will flow to the Group and the subsequent expenditures can be measured reliably. Other subsequent expenditures are recognised in profit or loss in the period in which they are incurred.

The Group uses the cost model for subsequent measurement of investment property, and adopts a depreciation or amortisation policy for the investment property which is consistent with that for buildings or land use rights.

When an investment property is sold, transferred, retired or damaged, the Group recognises the amount of any proceeds on disposal net of the carrying amount and related taxes in profit or loss for the period.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE PERIOD ENDED 30 JUNE 2015

III. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES *(continued)*

14. Fixed assets

14.1. Recognition criteria for fixed assets

Fixed assets are tangible assets that are held for use in the production or supply of goods or services, for rental to others, or for administrative purposes, and have useful lives of more than one accounting year. A fixed asset is recognized only when it is probable that economic benefits associated with the asset will flow to the Group and the cost of the asset can be measured reliably. Fixed assets are initially measured at cost and the effect of any expected costs of abandoning the asset at the end of its use is considered.

Subsequent expenditures incurred for the fixed asset are included in the cost of the fixed asset and if it is probable that economic benefits associated with the asset will flow to the Group and the subsequent expenditures can be measured reliably. Meanwhile the carrying amount of the replaced part is derecognized. Other subsequent expenditures are recognized in profit or loss in the period in which they are incurred.

14.2. Depreciation of each category of fixed assets

A fixed asset is depreciated over its useful life using the straight-line method since the month subsequent to the one in which it is ready for intended use. The useful life, estimated net residual value rate and annual depreciation rate of each category of fixed assets are as follows:

Category	Depreciation period (years)	Residual value rate (%)	Annual depreciation rate (%)
Buildings	10–30	0	3.33–10
Safety equipment	10	3	9.7
Communication and surveillance equipment	8	3	12.1
Toll and ancillary equipment	8	3	12.1
Machine and equipment	10	3	9.7
Electronic equipment	5	3	19.4
Motor vehicles	8	3	12.1
Furniture and others	5	3	19.4

Estimated net residual value of a fixed asset is the estimated amount that the Group would currently obtain from disposal of the asset, after deducting the estimated costs of disposal, if the asset were already of the age and in the condition expected at the end of its useful life.

14.3. Other explanations

If a fixed asset is upon disposal or no future economic benefits are expected to be generated from its use or disposal, the fixed asset is derecognized. When a fixed asset is sold, transferred, retired or damaged, the amount of any proceeds on disposal of the asset net of the carrying amount and related taxes is recognized in profit or loss for the period.

The Group reviews the useful life and estimated net residual value of a fixed asset and the depreciation method applied at least once at each financial year-end, and accounts for any change as a change in an accounting estimate.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE PERIOD ENDED 30 JUNE 2015

III. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES *(continued)*

15. Construction in progress

Construction in progress is measured at its actual costs. The actual costs include various construction expenditures during the construction period, borrowing costs capitalised before it is ready for intended use and other relevant costs. Construction in progress is not depreciated. Construction in progress is transferred to a fixed asset when it is ready for intended use.

16. Borrowing costs

Borrowing costs directly attributable to the acquisition, construction or production of qualifying asset are capitalized when expenditures for such asset and borrowing costs are incurred and activities relating to the acquisition, construction or production of the asset that are necessary to prepare the asset for its intended use or sale have commenced. Capitalization of borrowing costs ceases when the qualifying asset being acquired, constructed or produced becomes ready for its intended use or sale. If construction or production of assets qualifying capitalization is interrupted abnormally for a continuous 3-month-or-above period, the capitalization of borrowing costs should be ceased until the assets resume construction or production. Other borrowing costs are recognized as an expense in the period in which they are incurred.

Where funds are borrowed under a specific-purpose borrowing, the amount of interest to be capitalized is the actual interest expense incurred on that borrowing for the period less any bank interest earned from depositing the borrowed funds before being used on the asset or any investment income on the temporary investment of those funds. Where funds are borrowed under general-purpose borrowings, the Group determines the amount of interest to be capitalized on such borrowings by applying a capitalization rate to the weighted average of the excess of cumulative expenditures on the asset over the amounts of specific-purpose borrowings. The capitalization rate is the weighted average of the interest rates applicable to the general-purpose borrowings. During the capitalisation period, exchange differences related to a specific-purpose borrowing denominated in foreign currency are all capitalised. Exchange differences in connection with general-purpose borrowings are recognised in profit or loss in the period in which they are incurred.

17. Intangible assets

Intangible assets include land use rights, toll road operation rights and software etc.

An intangible asset is measured initially at cost. When an intangible asset with a finite useful life is available for use, its original cost less net residual value and any accumulated impairment losses is amortised over its estimated useful life using the straight-line method. If the Group has right to charge users of the public service in certain period but the amounts is not determined when relevant infrastructure completed, the Group measures the intangible asset initially at fair value of received or receivable consideration. The intangible asset is amortized using traffic volume method by using the ratio of traffic volume between certain period and whole operation period. When there is significant difference between actual and estimated traffic volume, the Group will re-evaluate the total traffic volume and calculate the amortization amount. An intangible asset with an indefinite useful life is not amortized. The amortization method, years of useful life and net residual value are as follows:

Category	Amortization method	Useful life (year)	Net residual value (%)
Land use rights	Straight-line method	22–30	0
Toll road operation rights	Traffic volume method	25–35	0
Software	Straight-line method	5	0

For an intangible asset with a finite useful life, the Group reviews the useful life and amortization method at the end of the period, and makes adjustments when necessary.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE PERIOD ENDED 30 JUNE 2015

III. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES *(continued)*

18. Long-term assets impairment

The Group assesses at each balance sheet date whether there is any indication that the long-term equity investment, investment property measured at cost method, fixed assets, construction in progress and intangible assets with a finite useful life may be impaired. If there is any indication that such assets may be impaired, recoverable amounts are estimated for such assets. Intangible assets with indefinite useful life and intangible assets not yet available for use are tested for impairment annually, irrespective of whether there is any indication that the assets may be impaired.

Recoverable amount is estimated on individual basis. If it is not practical to estimate the recoverable amount of an individual asset, the recoverable amount of the asset group to which the asset belongs will be estimated. The recoverable amount of an asset or asset group is the higher of its fair value less costs of disposal and the present value of the future cash flows expected to be derived from the asset or asset group.

If such recoverable amount is less than its carrying amount, a provision for impairment losses in respect of the deficit is recognised in profit or loss for the period.

Goodwill should be tested for impairment at least at the end of each year. For the purpose of impairment testing, goodwill is considered together with the related assets group(s), i.e., goodwill is reasonably allocated to the related assets group(s) or each of assets group(s) expected to benefit from the synergies of the combination. An impairment loss is recognized if the recoverable amount of the assets group or sets of assets groups (including goodwill) is less than its carrying amount. The impairment loss is firstly allocated to reduce the carrying amount of any goodwill allocated to such assets group or sets of assets groups, and then to the other assets of the group pro-rata on the basis of the carrying amount of each asset (other than goodwill) in the group.

Once the impairment loss of such assets is recognized, it is not be reversed in any subsequent period.

19. Long-term prepaid expenses

Long-term prepaid expenses represent expenses incurred that should be borne and amortised over the current and subsequent periods (together of more than one year). Long-term prepaid expenses are amortised using the straight-line method over the expected periods in which benefits are derived.

20. Employee benefits

20.1. Accounting method for short-term employee benefits

Actually occurred short-term employee benefits are recognized as liabilities, with a corresponding charge to the profit or loss for the period or in the costs of relevant assets in the accounting period in which employees provide services to the Group. Staff welfare expenses incurred by the Group are recognized in profit or loss for the period or the costs of relevant assets based on the actually occurred amounts when it actually occurred. Non-monetary staff welfare expenses are measured at fair value.

Payment made by the Group of social security contributions for employees such as premiums or contributions on medical insurance, work injury insurance and maternity insurance, etc. and payments of housing funds, as well as union running costs and employee education costs provided in accordance with relevant requirements, are calculated according to prescribed bases and percentages in determining the amount of employee benefits and recognized as relevant liabilities, with a corresponding charge to the profit or loss for the period or the costs of relevant assets in the accounting period in which employees provide services.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE PERIOD ENDED 30 JUNE 2015

III. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES *(continued)*

20. Employee benefits *(continued)*

20.2. Accounting method for post-employment benefits

Post-employment benefits are all defined contribution.

The contribution payable to the defined contribution plan is recognized as liabilities, with a corresponding charge to the profit or loss for the period or in the costs of relevant assets in the accounting period in which employees provide services to the Group.

20.3. Accounting method for termination benefits

When the Group provides termination benefits to employees, employee benefit liabilities are recognized for termination benefits, with a corresponding charge to the profit or loss for the period at the earlier of: (1) when the Group cannot unilaterally withdraw the offer of termination benefits because of the termination plan or a curtailment proposal; and (2) when the Group recognizes costs or expenses related to restructuring that involves the payment of termination benefits.

21. Revenue

21.1. Toll revenue

Toll revenue, the income from operation of toll roads, is recognized on a receipt basis.

21.2. Revenue from rendering of services

Revenue from rendering of services of the Group include: ancillary services and emergency assistance, advertising income etc. The revenue from rendering of services is recognized when services are rendered, the amount of revenue can be measured reliably, and it is probable that the associated economic benefits will flow to the Group.

21.3. Revenue from sale of goods

Revenue from sale of goods is recognized when (i) the Group has transferred to the buyer the significant risks and rewards of ownership of the goods; (ii) the Group retains neither continuing managerial involvement to the degree usually associated with ownership nor effective control over the goods sold; (iii) the amount of revenue can be measured reliably; (iv) it is probable that the associated economic benefits will flow to the Group; and (v) the associated costs incurred or to be incurred can be measured reliably.

21.4. Revenue from sales of properties

Revenue from sales of properties is recognized when the relevant procedures of properties are completed and the properties are transferred to buyer of real estate. Amount received of pre-sales of properties are recorded in the accounts of receipts in advance.

21.5. Interest income

Interest income is accrued on a time basis, by reference to the effective interest rate applicable.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE PERIOD ENDED 30 JUNE 2015

III. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES *(continued)*

22. Government grants

Government grants are transfer of monetary assets and non-monetary assets from the government to the Group at no consideration. Government grants are classified as grants related to assets and grants related to income, according to the grant objects which have been clearly defined in the government documents.

A government grant is recognized only when the Group can comply with the conditions attaching to the grant and the Group will receive the grant. If a government grant is in the form of a transfer of a monetary asset, it is measured at the amount received or receivable.

22.1. Basis of judgment and accounting methods for assets-related government grant

The Groups' government grant includes grants received aimed to create long-term asset by constructing or other methods. This grant is classified as assets-related government grant.

A government grant related to an asset is recognized as deferred income, and evenly amortized to profit or loss over the useful life of the related asset.

22.2. Basis of judgment and accounting methods for income-related government grant

The Groups' government grant includes subsidies for environment protection and research funding. This grant is classified as income-related government grant.

For a government grant related to income, if the grant is a compensation for related expenses or losses to be incurred in subsequent periods, it is recognized as deferred income, and recognized in profit or loss over the periods in which the related costs are recognized. If the grant is a compensation for related expenses or losses already incurred, it is recognized immediately in profit or loss for the period.

23. Deferred tax assets/deferred tax liabilities

The income tax expenses include current income tax and deferred income tax.

23.1. Current income tax

At the balance sheet date, current income tax liabilities (or assets) for the current and prior periods are measured at the amount expected to be paid (or recovered) according to the requirements of tax laws.

23.2. Deferred tax assets and deferred tax liabilities

For temporary differences between the carrying amounts of certain assets or liabilities and their tax base, or between the nil carrying amount of those items that are not recognized as assets or liabilities and their tax base that can be determined according to tax laws, deferred tax assets and liabilities are recognized using the balance sheet liability method.

Deferred tax is generally recognized for all temporary differences. Deferred tax assets for deductible temporary differences are recognized to the extent that it is probable that taxable profits will be available against which the deductible temporary differences can be utilized. However, for temporary differences associated with the initial recognition of goodwill and the initial recognition of an asset or liability arising from a transaction (not a business combination) that affects neither the accounting profit nor taxable profits (or deductible losses) at the time of transaction, no deferred tax asset or liability is recognized.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE PERIOD ENDED 30 JUNE 2015

III. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES *(continued)*

23. Deferred tax assets/deferred tax liabilities *(continued)*

23.2. *Deferred tax assets and deferred tax liabilities (continued)*

For deductible losses and tax credits that can be carried forward, deferred tax assets are recognized to the extent that it is probable that future taxable profits will be available against which the deductible losses and tax credits can be utilized.

Deferred tax liabilities are recognised for taxable temporary differences associated with investments in subsidiaries and associates, and interests in joint ventures, except where the Group is able to control the timing of the reversal of the temporary difference and it is probable that the temporary difference will not reverse in the foreseeable future. Deferred tax assets arising from deductible temporary differences associated with such investments and interests are only recognised to the extent that it is probable that there will be taxable profits against which to utilise the benefits of the temporary differences and they are expected to reverse in the foreseeable future.

At the balance sheet date, deferred tax assets and liabilities are measured at the tax rates, according to tax laws, that are expected to apply in the period in which the asset is realised or the liability is settled.

Current and deferred tax expenses or income are recognised in profit or loss for the period, except when they arise from transactions or events that are directly recognised in other comprehensive income or in shareholders' equity, in which case they are recognised in other comprehensive income or in shareholders' equity; and when they arise from business combinations, in which case they adjust the carrying amount of goodwill.

At the balance sheet date, the carrying amount of deferred tax assets is reviewed and reduced if it is no longer probable that sufficient taxable profits will be available in the future to allow the benefit of deferred tax assets to be utilised. Such reduction in amount is reversed when it becomes probable that sufficient taxable profits will be available.

23.3. *Offsetting of income taxes*

When the Group has a legal right to settle on a net basis and intends either to settle on a net basis or to realise the assets and settle the liabilities simultaneously, current tax assets and current tax liabilities are offset and presented on a net basis.

When the Group has a legal right to settle current tax assets and liabilities on a net basis, and deferred tax assets and deferred tax liabilities relate to income taxes levied by the same taxation authority on either the same taxable entity or different taxable entities which intend either to settle current tax assets and liabilities on a net basis or to realise the assets and liabilities simultaneously, in each future period in which significant amounts of deferred tax assets or liabilities are expected to be reversed, deferred tax assets and deferred tax liabilities are offset and presented on a net basis.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE PERIOD ENDED 30 JUNE 2015

III. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES *(continued)*

24. Operating leases and finance leases

Leases are classified as finance leases whenever the terms of the lease transfer substantially all the risks and rewards of ownership to the lessee. All other leases are classified as operating leases.

24.1. Accounting treatment on operating leases

24.1.1. The Group as lessee under operating leases

Operating lease payments are recognized on a straight-line basis over the term of the relevant lease, and are either included in the cost of related asset or charged to profit or loss for the period. Initial direct costs incurred are charged to profit or loss for the period. Contingent rents are charged to profit or loss in the period in which they are actually incurred.

24.1.2. The Group as lessor under operating leases

Rental income from operating leases is recognized in profit or loss on a straight-line basis over the term of the relevant lease. Initial direct costs with more than an insignificant amount are capitalized when incurred, and are recognized in profit or loss on the same basis as rental income over the lease term. Other initial direct costs with an insignificant amount are charged to profit or loss in the period in which they are incurred. Contingent rents are charged to profit or loss in the period in which they actually arise.

IV. CRITICAL JUDGMENTS IN APPLYING ACCOUNTING POLICIES AND KEY ASSUMPTIONS AND UNCERTAINTIES IN ACCOUNTING ESTIMATES

In the application of the Group's accounting policies, which are described in Note III, the Group is required to make judgments, estimates and assumptions about the carrying amounts of items in the financial statements that cannot be measured accurately, due to the internal uncertainty of the operating activities. These judgments, estimates and assumptions are based on historical experiences of the Group's management as well as other factors that are considered to be relevant. Actual results may differ from these estimates.

The aforementioned judgments, estimates and assumptions are reviewed regularly on a going concern basis. The effect of a change in accounting estimate is recognised in the period of the change, if the change affects that period only; or recognised in the period of the change and future periods, if the change affects both.

– Key assumptions and uncertainties in accounting estimates

Amortization of toll road operation rights

Amortization of the toll road operation rights are calculated to write off their cost, commencing from the date of commencement of commercial operation of the toll roads, based on the ratio of actual traffic volume compared to the total expected traffic volume of the toll roads.

The management exercises their judgment in estimating the total expected traffic volume of the toll roads during the operating period. When there is large difference between actual and expected traffic volume, the management will exercise their judgment in the accuracy of the expected traffic volume and adjust the future amortization per traffic volume.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE PERIOD ENDED 30 JUNE 2015

IV. CRITICAL JUDGMENTS IN APPLYING ACCOUNTING POLICIES AND KEY ASSUMPTIONS AND UNCERTAINTIES IN ACCOUNTING ESTIMATES *(continued)*

– Key assumptions and uncertainties in accounting estimates *(continued)*

Estimated impairment of toll road operation rights

Determining whether toll road operation rights are impaired requires an estimation of the recoverable amount.

In measuring the recoverable amount of the toll road operation rights, the Group has looked at the value in use based on the following factors: the current and expected future traffic volume, current and expected future toll fee level, length of operating rights, maintenance costs and discount rate.

In arriving at the recoverable amount of the toll road operation rights, the management exercised their judgment with reference to these Relevant Factors in estimating the recoverable amounts of the toll road operation rights. As a result, the management considered that the recoverable amounts are above their carrying amounts and no impairment was made accordingly.

V. TAXES

Major categories of taxes and tax rates

Category of tax	Basis of tax computation	Tax rate
Value Added Tax ("VAT")	The purchase and sale of goods output VAT less deductible input VAT	17%
Business Tax	Advertisement income output VAT less deductible input VAT	6%
	Toll income	3%
	Maintenance income	5%
	Food and beverage income	5%
	Real Estate rental income and Real Estate sales income	5%
City maintenance and construction tax	Actual paid business tax and VAT	5%–7%
Educational surtax and surcharge	Actual paid business tax and VAT	5%
Land appreciation tax	The taxable appreciation amount when land is invested out	progressive rates ranging from 30% to 60%
Enterprise income tax	Taxable income	25%

FOR THE PERIOD ENDED 30 JUNE 2015

VI. NOTES TO ITEMS IN THE CONSOLIDATED FINANCIAL STATEMENTS (continued)

4. Accounts receivable (continued)

(1) Disclosure of accounts receivable by categories (continued)

Accounts receivable portfolios for which bad debt provision has been assessed using the percentage of total receivables outstanding approach:

Unit: RMB

Name of portfolio	Accounts receivable	Closing balance Bad debt provision	Proportion (%)
Portfolio 2	55,550,350	1,111,007	2
Total	55,550,350	1,111,007	2

Basis for determining the above portfolio: See Note (III) 10.2.

(2) The aging analysis of accounts receivable is as follows:

Unit: RMB

Aging	Carrying amount	Closing balance			Carrying amount	Opening balance (Restated)		
		Proportion (%)	Bad debt provision	Net book value		Proportion (%)	Bad debt provision	Net book value
Within 1 year	123,135,568	99	261,017	122,874,551	117,172,791	99	209,693	116,963,098
More than 1 year but not exceed 2 years	-	-	-	-	-	-	-	-
More than 2 years but not exceeding 3 years	1,699,980	1	849,990	849,990	1,699,980	1	849,990	849,990
More than 3 years	-	-	-	-	-	-	-	-
Total	124,835,548	100	1,111,007	123,724,541	118,872,771	100	1,059,683	117,813,088

Credit policy

In order to minimize the credit risk, the Group has controlled credit limits, undertaken credit approvals and executed other monitoring procedures to ensure that necessary follow-up actions are taken to recover overdue debts. In addition, the Group reviews the recoverable amount of its receivables at each balance sheet date to ensure that adequate provisions are made for bad debts. In this regard, the management of the Group considers that the Group's credit risk was low.

(3) Provision recorded and written off in the current year

Provision recorded in the current year is RMB51,324.

NOTES TO THE FINANCIAL STATEMENTS

NOTES TO THE FINANCIAL STATEMENTS

FOR THE PERIOD ENDED 30 JUNE 2015

VI. NOTES TO ITEMS IN THE CONSOLIDATED FINANCIAL STATEMENTS (continued)

8. Other receivables (continued)

(5) Other explanations

On 6 July 2012, the Company received the "Notice from the Office of Jiangsu Provincial Government in respect of the removal or relocation of certain toll stations and related issues" (Suzhengban Fa [2012] No. 126) (the "Notice") issued by the Office of the Jiangsu Provincial Government. According to the Notice, the Company removed Nanjing Toll Station, Luoshe Toll Station (including Yanqiao Toll Station) and Xilin Toll Station that along G312 (the "312 Toll Stations"). Jiangsu Provincial Government issued "Approval on compensation for removal of the 312 Toll Stations" (Suzheng Fu [2012] No.115) on 31 December 2012 and committed to compensate for the loss incurred according to the net book value of related removed toll road operation rights. As a result, the Company recognized compensation receivables from Jiangsu Provincial Government at RMB1,124,177,798. The Company has received the commitment letter from Jiangsu Communications Holding Company Limited in March 2015, pursuant to which Jiangsu Communications Holding Company Limited agreed to compensate the total said amount on behalf of the government by cash. As at 30 June 2015, the Company has not received the amount.

Shenzhen Ruijin Co., Ltd.	2,000,000	-	-	2,000,000	-	-	-	-	17.24	-
Total	1,313,185,957	-	19,367,500	1,293,818,457	-	-	-	-		39,887,735

Note 1: Since the Group could exercise significant influence on Sundian Company after the acquisition of Jiangsu Xiyi Expressway Co. ("Xiyi Company"), Ltd. and Jiangsu Ningchang Zhenli Expressway Co., Ltd. ("Ningchang Zhenli Company"), the Group converted the investment on Sundian Company into associate accounted for equity method from available-for-sale financial assets.

Note 2: The closing balance of the equity investment to the foregoing investees by the Group is RMB1,293,818,457. Since the stocks of the investees have not quoted in an active market and the fair value could not be reliably measured, the Group measures them based on the cost. The Group has intention to continue to hold the equity of the invested entities in the next year.

The Company obtained bank credit limit of USD9,800,000 from Jiangsu branch of Bank of China in 1998. The credit limit was used to import machinery and technology and guaranteed by Jiangsu Communications Holding Company Limited. The credit limits include buyer's credit loan of USD4,900,000 and Spanish government loan of USD4,900,000. The buyer's credit loan has paid up in 2006. The Spanish government loan is paid up every half year from January 2009 with annum interest rate of 2%. The outstanding closing balance is RMB20,448,610 in this period.

The Company signed an debt transfer agreement with Jiangsu Ningchang Zhenli Expressway Company Ltd. and related banks in 15 June 2015, and agreed that since the date of signing of the agreement, the outstanding balance of the guaranteed loans shall be carried by the Company. The original loan guarantee was provided by the Communications Holdings, amounting to RMB1,100,000,000 for investment in construction of Ningchang Zhenli Expressway project. Jiangsu Ningchang Zhenli Expressway Company Ltd. and the Company had repaid RMB3,500,000, the remaining outstanding loan amount in the report period is RMB1,096,500,000 with an annual interest rate of 6.55%, and the latest repayment date is 23 October 2020.

Guangjing Xicheng Company signed an debt transfer agreement with Jiangsu Xiyi Expressway Company Ltd. and related banks in 26 June 2015, and agreed that since the date of signing of the agreement, the outstanding balance of the guaranteed loans shall be carried by the Company. The original loan guarantee was provided by the Communications Holdings, amounting to RMB300,000,000 and RMB200,000,000 for investment in and Wuxi Huantaihu Expressway project. The cumulative repayments were RMB125,000,000 and RMB147,000,000, the remaining outstanding loan amount in the report period are RMB175,000,000 and MB53,000,000, with an annual interest rate of 6.55% and 5.9%, and the latest repayment date are 5 March 2019 and 20 October 2018. The second batch loan added the guarantee of the toll road operation rights of Wuxi Huantaihu Expressway in June 2008.

Note 3: Entrusted loans from non-bank financial institutions mainly include loans provided by Communications Holdings and its subsidiaries through Group Finance Company.

Note 4: Loans from a related party represent private placement bonds and medium term issued by Communications Holdings and allocated to the Group according to the fund use term of the bond prospectus.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE PERIOD ENDED 30 JUNE 2015

VI. NOTES TO ITEMS IN THE CONSOLIDATED FINANCIAL STATEMENTS (continued)

31. Bond payable

(1) Bond payable

Unit: RMB

Item	Closing balance	Opening balance
Medium Term Notes	495,309,658	494,603,286
Private Placement Bond	–	499,310,408
Subtotal	495,309,658	993,913,694
Less: Bonds payable due within one year	–	499,310,408
Total	<u>495,309,658</u>	<u>494,603,286</u>

(2) Changes of bond payable

Unit: RMB

Name of bond	Par value	Issue date	Term of the bond	Issue amount	Opening balance	Issue in the current period	Interest accrued according to par value	Premium and discount amortization	Repayment in the current period	Closing balance
Medium Term Notes	500,000,000	19 June 2013	5 years	492,500,000	494,603,286	–	24,900,000	706,372	24,900,000	495,309,658

32. Deferred Income

Unit: RMB

Item	Closing balance	Opening balance (Restated)
Government grants	<u>35,572,585</u>	<u>36,199,929</u>

Note: The deferred income is appropriated by People's Government of Wujin District of Changzhou City for construction of Ningchang expressway road, due to the extra cost of construction of Wujin Development Zone viaduct project. The project construction subsidy is RMB40,000,000.00, the Group recognizes the project construction subsidy as a compensation of the construction cost of Ningchang expressway which is recorded in deferred income.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE PERIOD ENDED 30 JUNE 2015

VI. NOTES TO ITEMS IN THE CONSOLIDATED FINANCIAL STATEMENTS (continued)

33. Share capital

Unit: RMB

	Opening balance	New issue of shares	Bond issue	Change for the year Capitalization of surplus reserve	Others	Subtotal	Closing balance
1 January 2015 to 30 June 2015							
Total shares	5,037,747,500	-	-	-	-	-	5,037,747,500

In accordance with the Company's state share reform proposal adopted by the Company's shareholders' meeting on 24 April 2006 (the "Share Reform Proposal"), the shareholders of the non-tradable shares, which comprised the state shares, state legal person shares and legal person shares, offered a transfer of 3.2 non-tradable shares to the then shareholders of A-shares for every 10 "A" shares held by the then shares holders of A-shares in exchange for the approval by the shareholders of A-shares to convert all remaining non-tradable shares into restricted tradable shares. As a result, in the year 2006, 48,000,000 non-tradable shares were transferred to the shareholders of A-shares as consideration for the approval by the non-tradable shareholders, and these 48,000,000 non-tradable shares were granted trading status as a shares on 16 May 2006. After the transfer of the consideration 48,000,000 non-tradable shares, part of them have been transferred to the category of tradable A share upon the granting of trading status on 16 May 2007, 14 June 2007, 27 July 2007, 28 February 2008, 10 October 2008, 8 June 2009, 10 March 2010, 17 December 2010, 20 May 2011, 29 July 2011, 17 August 2012, 6 November 2013 and 15 January 2015 separately.

The Group did not purchase, sale or redeem shares of the Company for the current period.

34. Capital reserve

Unit: RMB

Item	Opening balance (restated)	Increase in the period	Decrease in the period	Closing balance
1 January 2015 to 30 June 2015				
Capital premium (Note 1)	8,829,971,453	-	1,064,700,001	7,765,271,452
Other capital reserve	2,681,390,888	-	-	2,681,390,888
Including: Share of capital reserve of the investee under the equity method	(1,586,347)	-	-	(1,586,347)
Transfer from capital reserve under the previous accounting system	2,682,977,235	-	-	2,682,977,235
Total	11,511,362,341	-	1,064,700,001	10,446,662,340

Note 1: The decrease of capital premium in this period is mainly due to the adjustment on capital premium in the business combinations under common control for the acquisition Xiyi Company and Ningchang Zhenli Company .

NOTES TO THE FINANCIAL STATEMENTS

FOR THE PERIOD ENDED 30 JUNE 2015

VI. NOTES TO ITEMS IN THE CONSOLIDATED FINANCIAL STATEMENTS (continued)

35. Other comprehensive income

Unit: RMB

Item	Opening balance	Before-tax amount for the current year	Change for the year				Closing balance
			Less: Net amount included in other comprehensive income in the prior periods that is reclassified to profit or loss for the year	Less: Income tax expense	Post-tax net amount attribute to parent company owners	Post-tax net amount attribute to minority shareholders	
1 January 2015 to 30 June 2015							
I. Other comprehensive income that will not be reclassified subsequently to profit or loss	-	-	-	-	-	-	-
II. Other comprehensive income that will be reclassified subsequently to profit or loss	188,889,048	-24,385,902	-	-	-24,385,902	-	164,503,146
Including:							
Share of other comprehensive income of the investee under the equity method that will be reclassified subsequently to profit or loss	188,889,048	-24,385,902	-	-	-24,385,902	-	164,503,146
Total other comprehensive income	188,889,048	-24,385,902	-	-	-24,385,902	-	164,503,146

Note: During the period, other comprehensive income increased from the fair value adjustment of the available for sale financial assets of Yangtze Bridge Company, the associate of the Group. The Group adjusted other comprehensive income at the share proportion.

36. Surplus reserves

Unit: RMB

Item	Opening balance	Increase in the period	Decrease in the period	Closing balance
1 January 2015 to 30 June 2015				
Statutory surplus reserve	2,909,597,769	-	-	2,909,597,769
Discretionary surplus reserve	17,445,924	-	-	17,445,924
Total	2,927,043,693	-	-	2,927,043,693

NOTES TO THE FINANCIAL STATEMENTS

FOR THE PERIOD ENDED 30 JUNE 2015

VI. NOTES TO ITEMS IN THE CONSOLIDATED FINANCIAL STATEMENTS (continued)

37. Retained profits

Unit: RMB

Item	Amount incurred in the current period	Amount incurred in the prior period (restated)
Retained profits at the end of prior period (before adjustment)	4,712,690,449	4,146,025,799
Adjustment on opening balance of total retained profits (addition +, deduction -)	-3,361,752,969	-3,014,906,488
Retained profits at the end of prior period (adjusted)	1,350,937,480	1,131,119,311
Add: Net profit attributable to owners of the Company for the period	1,726,699,765	1,181,186,740
Less: Appropriation to statutory surplus reserve	1,914,344,050	1,914,344,050
Retained profits at the end of the period	<u>1,163,293,195</u>	<u>397,962,001</u>

Note 1: Because of the changes in the consolidated financial statement scope due to business combination under common control, the beginning balance of retained profits are adjusted by RMB -3,361,752,969.

Note 2: Dividend in cash approved in the shareholders' meeting in the Reporting Period

In 2015, on the basis of 5,037,747,500 issued shares (with the par value of RMB1 per share), dividends in cash of RMB0.38 per share were distributed to all the shareholders.

Note 3: The Board of the Company on Aug 28, 2015 has considered and approved that there would be no distribution of profit for the first half of 30 June 2015.

Other explanations:

- 1) The shareholders equity and the net profit attributable to Yanjiang Company are the net amount which has deducted the 40% of the equity of Zhangjiagang Port Expressway owned by Zhangjiagang Municipal Public Assets Management Co., Ltd. and 30% of the equity of Taicang Port Expressway owned by Suzhou Taicang Port Shugang Expressway Co., Ltd.. The Group still owns 32.26% of shareholders equity and net income of the shareholders equity and the net profit attributable to Yanjiang Company .

Total amount of the following items calculated according to the proportion of shareholding		
Net profit	-3,028,091	-2,322,676
Other comprehensive income	—	—
Total comprehensive income	<u>-3,028,091</u>	<u>-2,322,676</u>

(4) Explanations on significant restrictions to the ability of transferring funds to the Group from associates

There is no significant restrictions to the ability of transferring funds to the Group from associates.

(5) Contingent liabilities related to associates

There is no contingent liabilities related to associates.

IX. FINANCIAL INSTRUMENTS AND RISK MANAGEMENT

The Group's major financial instruments include bank deposits, equity investments, debt investments, borrowings, accounts receivable, other receivables, accounts payable, other payables etc. Details of these financial instruments are disclosed in note VI. The risks associated with these financial instruments and the policies on how to mitigate these risks are set out below. Management manages and monitors these exposures to ensure the risks are monitored at a certain level.

The Group's risk management objectives are to achieve a proper balance between risks and yield, minimize the adverse impacts of risks on the Group's operation performance, and maximize the benefits of the shareholders and other stakeholders. Based on these risk management objectives, the Group's basic risk management strategy is to identify and analyses the Group's exposure to various risks, establish an appropriate maximum tolerance to risk, and implement risk management, and monitors regularly and effectively these exposures to ensure the risks are monitored at a certain level.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE PERIOD ENDED 30 JUNE 2015

X. DISCLOSURE ON FAIR VALUE

1. Closing fair value of assets and liabilities measured at fair value

Unit: RMB

Item	Fair value at the end of the year			Total
	Level 1 fair value measurement	Level 2 fair value measurement	Level 3 fair value measurement	
Fair value measured on a recurring basis				
FVTPL	37,982,527	–	–	37,982,527
Other current assets-Financial management product	–	–	171,800,000	171,800,000

2. Level 1 fair value measurement on a recurring basis

The Group measured the fair value of FVTPL according to the information of closing market price was quoted by relevant open sourced information of the fund and gold market.

3. Valuation techniques and quantitative information of level 3 fair value measurements on a recurring basis

Unit: RMB

Item	Fair value at 30 June 2015	Valuation techniques	Significant unobservable inputs	Range
Other current assets-Financial management product	171,800,000	Discounted cash flow	Anticipate return rate	3.8%–5%

The Group except the future cash flow of the other current assets – Financial management products according to the anticipate return rate, and discount the cash flow to calculate the fair value.

4. There were no transfers between Level 1, 2 and 3 in the current and prior years.

5. The directors consider that the carrying amounts of financial assets and financial liabilities recorded at amortized cost in the consolidated financial statements approximate their fair values.

6. The consolidated financial statements consist of equity instruments investment which is not quoted in active markets. With no public market value, a reasonable assessment of its fair value will result in high cost, therefore the Group does not disclosure its fair value.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE PERIOD ENDED 30 JUNE 2015

XII. COMMITMENTS AND CONTINGENCIES

1. Significant commitments

(1) Capital commitments

Unit: RMB

	Closing balance	Opening balance
Capital commitments that have been entered into but have not been recognized in the financial statements		
– Commitment for acquisition and construction of long-term assets	188,842,100	252,411,320
Total	<u>188,842,100</u>	<u>252,411,320</u>

(2) Operating lease commitments

At the balance sheet date, the Group had the following commitments in respect of non-cancellable operating leases:

Unit: RMB

	Closing balance	Opening balance
Minimum lease payments under non-cancellable operating leases:		
1st year subsequent to the balance sheet date	1,325,906	2,347,786
2nd year subsequent to the balance sheet date	–	–
3rd year subsequent to the balance sheet date	–	–
Subsequent periods	–	–
Total	<u>1,325,906</u>	<u>2,347,786</u>

(3) Other commitments

The Group is committed to pay in the following year to Jiangsu Ninglian Ningtong Management Office, an independent third party, a management service charge calculated at a fixed rate of 17% of the total toll revenue collected that year on Nanjing-Lianyungang Highway per annum for a term of 30 years from 1 January 2000.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE PERIOD ENDED 30 JUNE 2015

XII. COMMITMENTS AND CONTINGENCIES *(continued)*

2. Contingencies

(1) *significant contingencies at the balance sheet date*

Ninghu Properties, a subsidiary of the Group provides guarantees to banks for bank borrowings granted to buyers of properties Huaqiao C4 Tongcheng Hongqiao Mansion, Huaqiao Urban Core B4 Guangmingjiezuo Project, Huaqiao Urban Core B19 Guangmingxinzu Project, Baohua Hongyan Community B1 and B2 Tongchengshijia Project. The obligation begins from the date on which the guarantee contract comes into effect and will end when the buyers obtain certifications of the purchased properties and complete registration of mortgage and pass the properties warrants certification to bank. As at 30 June 2015, the outstanding guarantees amounted to approximately RMB217,913,674 (31 December 2014: RMB175,803,094).

XIII. EVENTS AFTER THE BALANCE SHEET DATE

No significant events occurred subsequent to 30 June 2015 and up to the date of this interim report.

XIV. OTHER SIGNIFICANT EVENTS

1. Annuity scheme

See note (VI) 23.

2. Retirement benefits scheme

See note (VI) 23.

3. Net current assets (liabilities)/Total assets less current liabilities

Unit: RMB

	Closing balance	Opening balance (Restated)
Current assets	5,462,674,385	5,705,750,496
Total assets	37,655,245,810	37,481,617,108
Less: current liabilities	11,392,699,216	9,077,247,434
Net current liabilities	<u>(5,930,024,831)</u>	<u>(3,371,496,938)</u>
Total assets less current liabilities	<u>26,262,546,594</u>	<u>28,404,369,674</u>

NOTES TO THE FINANCIAL STATEMENTS

FOR THE PERIOD ENDED 30 JUNE 2015

XIV. OTHER SIGNIFICANT EVENTS *(continued)*

4. Net Profit for the year has been arrived at after charging:

Item	Amount incurred in the current period	Amount incurred in the prior period (Restated)
Staff costs (Include: directors' emoluments)	279,239,111	262,846,316
Retirement benefits scheme contributions	52,757,120	47,925,116

Audit fee	1,556,900	726,150
Depreciation and amortization (Included in operating costs and administrative expenses)	673,281,681	692,372,291
Losses on disposal of non-current assets	631,889	796,144
Amortization of land use rights (Included in operating costs and administrative expenses)	31,592,073	31,592,073
Cost of inventories recognised as an expense	945,747,971	1,148,752,480

5. Segment reporting

(1) *Determining basis and accounting policy of reporting segment*

Based on the Group's internal organization structure, management requirements and internal reporting system, the operations of the Group are classified into 9 reporting segments. The Group's management periodically evaluates the operating results of these reporting segments to make decisions about resources to be allocated to the segments and assess their performance. The Group has classified 9 reporting segments, which are Shanghai-Nanjing Expressway, G312, Nanjing-Lianyungang Highway, Guangjing Expressway and Xicheng Expressway, Xiyi Expressway, Ningchang Expressway and Zhengli Expressway, ancillary services (including petrol, catering and retail in service zone along the expressways), real estate development and advertising and others. These reporting segments are classified by the management based on the standards with which the management determines resources allocation and operating results.

Segment information is disclosed in accordance with the accounting policies and measurement criteria adopted by each segment when reporting to management. The measurement criteria are consistent with the accounting and measurement criteria in the preparation of the financial statements.

Total segment assets	338,735,421	346,717,468	3,543,714,463	3,322,482,081	331,050,010	378,064,801	8,743,312,867	8,388,101,693	37,655,245,810	37,481,617,108

Segment profit represents the gross profit earned by each segment without allocation of finance costs, and investment income. The decision maker of the Group considers resource allocation and assessment of segment performance based on such information.

For the purposes of monitoring segment performances and allocating resources between segments, assets other than available-for-sale financial assets, long-term equity investment, held-for-trading financial assets and cash and bank balances etc. are allocated to segments.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE PERIOD ENDED 30 JUNE 2015

XIV. OTHER SIGNIFICANT EVENTS (continued)

5. Segment reporting (continued)

(3) **External revenue classified by geographical area of source and non-current assets classified by geographical location**

All income and assets of the Group are from/located in the Jiangsu Province.

(4) **Degree of reliance on major customers**

The principle activities of the Group are toll roads operation and ancillary services along toll roads etc.. Therefore, there is no reliance on specific customers.

XV. NOTES TO KEY ITEMS IN THE COMPANY'S FINANCIAL STATEMENTS

1. Accounts receivable

(1) **Disclosure of accounts receivable by categories:**

Unit: RMB

Category	Carrying amount		Closing balance		Net book value	Carrying amount		Opening balance		Net book value
	Amount	Proportion (%)	Amount	Proportion (%)		Amount	Proportion (%)	Amount	Proportion (%)	
Accounts receivable that are individually significant and for which bad debt provision has been assessed individually	-	-	-	-	-	-	-	-	-	-
Accounts receivable for which bad debt provision has been assessed by portfolios	76,775,368	100	151,248	100	76,624,120	80,276,320	100	151,248	100	80,125,072
Accounts receivable that are not individually significant but for which bad debt provision has been assessed individually	-	-	-	-	-	-	-	-	-	-
Total	76,775,368	100	151,248	100	76,624,120	80,276,320	100	151,248	100	80,125,072

Accounts receivables portfolios for which bad debt provision has been assessed using the percentage of total receivables outstanding approach:

Unit: RMB

Name of portfolio	Accounts receivable	Carrying amount Bad debt provision	Proportion (%)
portfolio 2	7,562,395	151,248	2
Total	7,562,395	151,248	2

Basis for determining the above portfolio: See Note (III)10.2.

NOTES TO THE FINANCIAL STATEMENTS
